Introduction
In the present learner oriented system, the focus is on the outcome based teaching learning process. A well-defined course plan is the core ingredient to make this process effective. A course plan helps teachers in equipping themselves with a clear direction and plan of action for the course. For the learner, the course plan gives a clear idea of the contents of the course, the objectives, outcome expected and the assessment/evaluation etc.

Objective of the workshop
To enable the participants to write an effective course plan which meets all the requirements according to the standards set by the University and other regulatory bodies.

Learning Outcomes
The participants will be able
1. To confidently structure a course plan with all the essential contents
2. To state course outcomes and choose appropriate assessment tools to measure the same.

Who should attend the workshop?
Members of the faculty of Universities and colleges

Technical sessions
Designing and structuring a course plan
Stating Outcomes and choosing appropriate assessment tools
Practical course designing sessions
Registration fee
Rs. 1000/- per person.
