

Program : <b>Diploma in Engineering and Technology / Commercial Practice / Management</b>	
Course Code : <b>5008</b>	Course Title: <b>Seminar</b>
Semester : <b>5</b>	Credits: <b>1</b>
Course Category: <b>Seminar</b>	
Periods per week: <b>2</b>	Periods per semester: <b>30</b>

### Course Objectives:

- To develop skills in literature survey, technical presentation, paper preparation and public speaking.
- To enable the students to update with the latest topics in concerned discipline.

### Course Prerequisites:

Topic/Description	Semester
Basic knowledge in the relevant program up to 4 <sup>th</sup> semester	1 - 4

### Course Outcomes:

On completion of the course, the students will be able to:

CO <sub>n</sub>	Description	Duration (Hours)	Cognitive Level
CO1	Demonstrate presentation skills.	2 hours/ week	Applying
CO2	Develop technical paper using open-source tools.		Applying
CO3	Ability to assimilate advancements in engineering technology/commercial practice/management		Applying

## CO – PO Mapping

Course Outcomes	PO1	PO2	PO3	PO4	PO5	PO6	PO7
CO1						3	
CO2				2		3	
CO3							3

3-Strongly mapped, 2-Moderately mapped, 1-Weakly mapped

## Course Outline

Each student shall identify a topic of current relevance in his/her area of study( program), get approval of faculty concerned, collect sufficient literature on the topic, study it thoroughly, prepare own report in format specified and present in the class.
