## Criterion 7 - Institutional Values and Best Practices

### 7.2 Best Practices

**7.2.1 Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual.**

**Response:**

#### **BEST PRACTICE 1**

**Title of the Practice: ENGINEERING FOR SOCIETAL DEVELOPMENT**

#### **Goal**

The Mechanical and Automobile departments at SSET have consistently focused on increasing public and student awareness of road safety. The Civil Department conducted a survey, which revealed an increase in road fatalities due to accidents, highlighting the need for widespread public awareness. SCMS Institute for Road Safety and Transportation (SiRST), a center of excellence in road safety and transportation innovation that combines the energy of youth, the strength gained through experience, and the depth of technical knowledge to ensure ecological balance through green mobility, enabling a safe, seamless, and sustainable travel experience.

#### **The Context**

- An intellectual center for safe transport, driving academy.
- Supports Government and Non-Government organizations in road safety, transport innovation and coordination, green mobility, technical problem-solving, law and policy making.
- Bridging all technical gaps related to the road.
- Combines the innovative intellectual ideas as well as synergy of students along with the experience and technical know-how of faculty for social good.

#### **The Practice**

- Projects to make students know about techno-legal-social awareness in road safety and transport and prepare students for various competitive examinations.
- Research on causes of accidents and its solutions.
- Research in vehicle safety, educational programs like KYV and KYR.
- Programs to introduce technological changes in the field of transportation happening at the international level in our state.
- Awareness programs on various aspects of road safety and transportation.
- Various certificate courses in transportation planning, designing, traffic engineering, traffic management etc.

#### **Evidence of Success**

SCMS Institute for Road Safety and Transportation (SiRST)

## BEST PRACTICE 2

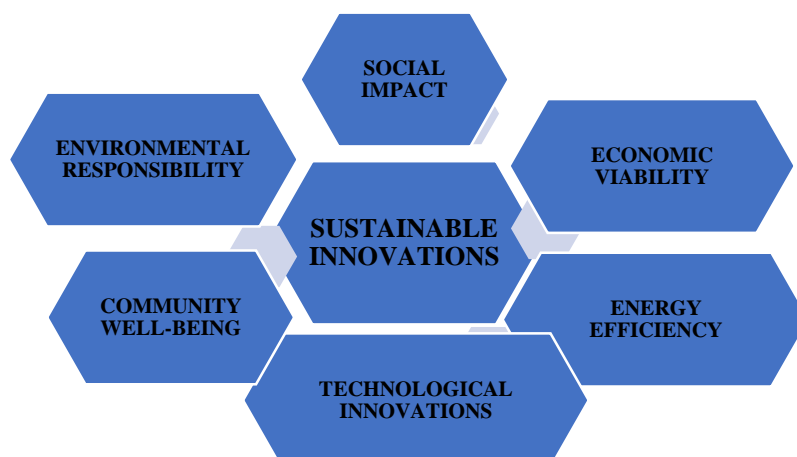

### Title of the Practice: INNOVATIONS FOR SOCIAL SUSTAINABILITY

#### Goal

SSET makes concerted efforts to create cost-effective and innovative inventions that can promote a state of well-being for human, social, economic, and environmental interactions towards sustainable development.

#### The Context

Our primary objectives are to expose our community to the most recent scientific and technological advancements in the field, as well as to develop our youth's technical skills in order to improve manpower and increase employability. It's a forward-looking approach to:

## SCMS SCHOOL OF ENGINEERING & TECHNOLOGY

VIDYA NAGAR, KARUKUTTY, ERNAKULAM – 683576, PHONE: 0484-2882900, 2450330

E-Mail: sset@scmsgroup.org Website: www.scmsgroup.org/sset

### The Practice

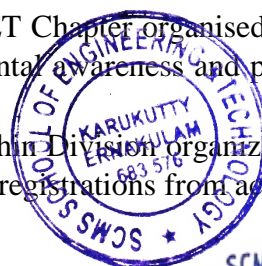

SSET advances and manages sustainable activities and initiatives in campus by promoting curricula and research, focusing on campus sustainability through coordination of resource conservation on campus, and student sustainability, which collaborates with the Institute to create opportunities for student engagement and leadership. The initiatives were:

1. SSET has made significant progress in improving energy efficiency by implementing energy management systems to optimize energy usage, as well as installing **energy-efficient** lighting and a solar power plant on campus. As part of a green audit, we have zero percent carbon emissions, which substantiates the presence of greenery on campus.
2. **Community well-being** is infused through activities initiated by NSS, SiRST (SCMS Institute for Road Safety and Transportation), and H2O (Helping Hands Organisation) for societal improvement.
3. **Technological advancement** Through IEDC, Yi YUVA, and Fab Lab, we have fueled the fame of innovative spirits in our students, allowing them to be viable enough to spear up for innovations.
4. As part of an initiative to develop **environmental responsibility**, our students are responsible enough to contribute to the sustainability of our environment, as evidenced by various activities on and off campus.
5. **Social impact** began as philanthropic efforts to assist those in need. Visiting old ages homes, coordinating the relief camps, road safety awareness campaign at are all the efforts by our students.
6. **Economic Viability, Community service opportunities** and a sense **civic duty** have been initiated through various programs of NSS to instill a sense of social responsibility in students through effective coordination and participation.

### Evidence of success

The indigenous faculty student partnership has been the key ingredient in coming up with challenging solutions.

1. 24 hour 'HACK' from 31-OCT-2022 to 01-NOV-2022 for school and college students.
2. H2O's, Join hands for rebuilding lives: One brick at a time a community well-being initiative SPARSHAM – 2023.
3. Yi Yuva Digital Detox Skit Competition, Nithya S, a student from S3 ECE, was awarded the "Best Actress" and secured overall 4<sup>th</sup> position.
4. Yi YUVA, in collaboration with the Kerala Police, Motor Vehicle Department - Kerala, SiRST, NSS, and Medical Trust, organized a comprehensive road safety awareness campaign at Edapally Junction.
5. On June 5, 2023, the Yi Yuva SSET Chapter organised a fruit sapling planting event with the goal of raising environmental awareness and providing students with hands-on learning opportunities.
