TO THE TRIBALS-2023

DATE: 13/09/2023

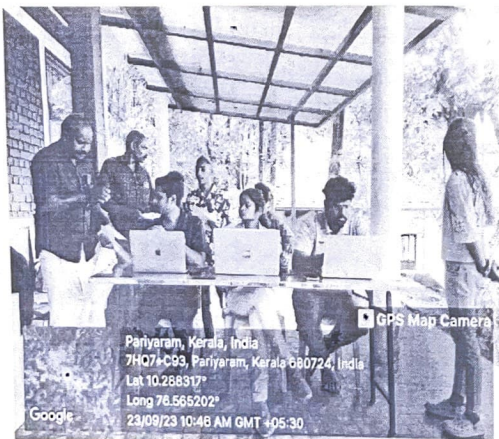

SCMS SCHOOL OF ENGINEERING AND TECHNOLOGY NATIONAL SERVICE SCHEME UNIT 182 & 328	
TITLE OF ACTIVITY:	SCHEME TO ISSUE DRIVING LICENSE TO THE TRIBALS
EVENT VENUE:	VAZHACHAL FOREST DIVISION
ORGANISED BY:	NSS UNIT SSET
DATE OF WORK:	13 September 2023
NO: OF STUDENTS	20

REPORT:

- The plan for provide driving licences to the tribals was collaboratively developed by Chalakudy Motor Vehicle Department, NSS SSET units 182 and 328, and Chalakudy.
- Prior to that, they had specialised training and a simulated test to get ready for the driving learner's test.
- For a civilization that spends the majority of its time in the forest and is cut off from modern technology, this activity opens doors of possibility.
- Every NSS volunteer has contributed to the worthy goal of guiding this little community, where even basic driving instruction has become difficult due to socioeconomic factors, distant location, and a lack of facilities.
- Beginning with an explanation of traffic laws, Motor Vehicle Inspector Mr. Sanjo Varghese was followed by a discussion on traffic indicators from Program Officer Mr. Rakesh A.
- After that, NSS volunteers Aadilshah Shanavas, Sobin Varghese, Delvin, Jesvin, and Aadith Junu assisted volunteer secretary Fahad M. Fakhrudeen in introducing the mock test for online learners and conducting it.

- Additionally, they conveyed the idea that by exposing more than 90 tribal members to creative self-sufficiency methods, they will develop as knowledge is shared.
- Today in Vazhachal Forest Division, NSS SSET successfully completed the first phase, creating a new level of equality and knowledge.

REPORT OF H2O

H2O – HELPING HANDS ORGANIZATION

Students and faculty members of SSET have always been committed to society, contributing towards social, cultural, and ecological causes. Students have always taken care of their morals and actions in such a way that the people immediately around them are not adversely affected. The Helping Hands Organization (H2O) provides a platform that collectively brings all the students and faculty members of SSET together for the betterment of society.

SSET- H2O had taken the initiative on two projects for this academic year

1. **Renovate the cattle shed (Belonging to a Poor family) in Palissery which was destroyed in the recent rain.**
2. **Reconstruct the roofing of a house that was destroyed in the rain.**

SPARSHAM Project 1 Report (Sept 22- 23, 2023)

Renovate the cattle shed (belonging to a poor family) in Palissery, which was destroyed in the recent rain.

As an initial approach, we began with the first project. It started on the 22nd (Friday) of September 2023 and by the 23rd (Saturday) night we had completed our first project, without any help from external professional workers which was a big Highlight of the entire process.

The following students participated in these two days' work on the first project of H2O.
