To: sset.placement@scmsgroup.org

Dear Jenson Joseph E,

Thank you for showing interest and registering for the Employability Readiness program.

It's time to log in and upload your student data to automate the process using the link given below.

Here is the link to login: <https://learning.tcsionhub.in/EForms/configuredHtml/1016/73562/login.html>

Login ID: 1004470

Password: 1004470

The above URL and credentials can be used to modify the uploaded data or to add more data.

Next Steps:

1. Students will receive an email to Initiate the "Employability Readiness Program" within two days of uploading the data.
2. Inform the students upfront and give a basic insight about the advantages of taking TCS iON ERP.

We wish you and all your current & alumni students of your Institution to achieve 100% placements.

Regards,

TCS iON

Dear Jenson Joseph E,

Thank you for showing interest and registering your Campus/Alumni Students for a comprehensive Job Readiness package which will help them in their placements.

We have successfully assigned TCS NQT "Employability Quotient (EQ)" test to your students and a communication via email has been sent to them.

The test details and login credentials are shared on the same email. Request you to kindly convey the same to your students.

**Next Steps:**

1. With the login credentials provided, candidates need to log in at <https://iur.is/ApplyNQT>
2. On "My dashboard", click on "Employability Quotient (EQ) test"
3. Launch and take the test.

We wish that the current and alumni students of your Institution to achieve 100% placements.

Regards,  
TCS NQT Team

**P.S.** Please add our email ID to your email Safe Senders list, address book or contact list.

This is a system generated email – please DO NOT REPLY to it. If you have any queries regarding your registration, please reach out to us at the above-mentioned contact details.

Subject: Introducing TCS iON Employability Readiness Program

To: &lt;sset@scmsgroup.org&gt;

**Dear Sir/Madam,**

We hope this message finds you well. In today's job market, a skill; be it academic or soft skill alone, doesn't always ensure the right visibility and lead to a successful career. Multiple online research states that **more than half of the graduates** passing out each year from multiple academic streams struggle to get employment and the right aspirational job role meeting the Industry requirements.

We understand the pivotal role academic institutions play in imparting students with knowledge and skills, however there is always a challenge to get the right employment opportunity and get placed.

We are excited to introduce the **TCS iON ERP Employability Readiness Program**, a comprehensive solution to address this vital aspect. The **TCS iON ERP** provides a holistic 4 step approach to help students identify their core strengths, to channel their skill towards a successful career.

**Career Path Identification:** The **TCS iON Career Insight** assists students in identifying their ideal career paths.

**Skill Development:** The **TCS iON Career Edge Young Professional Program** equips students with the necessary skills required for a successful transition into the professional world.

**Soft Skill Enhancement:** The **TCS iON Career Enhancement Program** focuses on strengthening soft skills, a long-standing challenge for many students.

**Employability Quotient Test:** The **TCS iON EQT** evaluates students' placement readiness, allowing placement officers to take proactive measures.

The best part? This entire process is **free of cost** for registered students from your institution. By embracing the **TCS iON ERP Employability Readiness Program**, you empower your students to overcome challenges and prepare towards better employability which enables you to enhance your institution's placement numbers year after year.

### Register Your Institute

We invite you to take advantage of this opportunity to prepare your students for success in their future careers. Together, we can address the long-time challenges faced by students and guide them towards brighter professional prospects.

Thank you for your time and consideration.

Warm regards,

**TCS iON**
