**SCMS SCHOOL OF ENGINEERING AND TECHNOLOGY**  
**DEPARTMENT OF AUTOMOBILE ENGINEERING**  
**BATCH 2020-2024**

**INDUSTRIAL VISIT TO AUTOMOBILE INDUSTRY**

**COURSE OBJECTIVES:**

- To provide students with hands-on exposure to the real-world application of theoretical knowledge
- To give students a deeper understanding of the automotive industry, its structure, operation, and current trends.
- To expose students to the latest automotive technologies

**COURSE OUTCOMES:**

- Students gain a deeper understanding of the practical aspects of the automobile industry
- Students become familiar with the latest automotive technologies

On 28-03-2023, 14 students from the Department of Automobile Engineering, accompanied by faculty member Mr. Anoop M S, Assistant Professor, visited Gurucharan Industries in Bykampady, Mangalore. The purpose of the visit was to provide the students with practical exposure to the working of plastic processing machinery. Gurucharan Industries is a well-known company in the field of plastic processing and specializes in manufacturing plastic components for the automobile industry.

Students visiting Gurucharan Industries in Bykampady, Mangalore on 28/3/23

During the visit, the students had the opportunity to witness and understand the working of various plastic processing machineries. They were given a tour of the manufacturing facility and were able to observe the entire production process, from raw material preparation to the final product assembly. The students were particularly interested in the injection molding machines, extruders,

PRINCIPAL  
SCMS SCHOOL OF ENGINEERING & TECHNOLOGY  
VIDYANAGAR, PALLISSERY, KARUKUTTY  
ERNAKULAM, KERALA-683 576

and blow molding machines, which are widely used in the plastic processing industry. They learned about the functions and applications of these machines in the manufacturing process, gaining valuable insights into the industry's operations. In addition to observing the machinery, the students also had the chance to interact with the employees of Gurucharan Industries. They engaged in discussions with professionals from different departments, including production, quality control, and maintenance. This interaction provided the students with a deeper understanding of the roles and responsibilities of each department and how they contribute to the overall manufacturing process. The employees were enthusiastic and shared their experiences, giving the students a glimpse into the work culture and professionalism in the industry. Overall, the industrial visit to Gurucharan Industries was highly beneficial for the students. It helped bridge the gap between theoretical knowledge and practical application by providing them with hands-on experience in the field of plastic processing. The visit enabled the students to gain a comprehensive understanding of the working of plastic processing machinery and its significance in the automobile industry. The faculty and students express their gratitude to Gurucharan Industries for their warm hospitality and valuable insights shared during the visit, which greatly contributed to the students' learning experience.

## Certificate

*This is to certify that 14 Number Third Year B.Tech students, and 1 Faculty, of SCMS School, of Engineering & Technology, Vidya nagar, Karukutty, Emakulam-683576 has visited our Organization. During their visit, students has acquainted themselves with all the departments and successfully completed visit.*

*During their visit, we found students quite regular and took keen interest in understanding the organization, sincere, and enthusiasm. We also found their performance and conduct good.*

*We wish them, all the success in their future endeavors.*

20/4/23

Dear Sir/Mam,

As per our conversation, 26 students from IV<sup>th</sup> and II<sup>nd</sup> semester B.Tech Automobile Engineering accompanied by 1 faculty will be visiting the industry as part of an educational industrial visit. The visit aims to provide our students with practical exposure to the industrial environment, allowing them to gain insights into real-world applications of the theoretical knowledge they acquire in classrooms. It will also serve as an opportunity for our faculty members to engage with industry professionals, fostering collaboration and knowledge exchange.

We assure you that the visit will be conducted with the utmost respect for your facility and operations. Our students and faculty members will adhere to all safety regulations and guidelines provided by your staff during the visit.

Thank you for considering our request.

The list of students and faculty members who will be participating in the visit are attached.

Thanking You,

Dr. Anitha G. Pillai

## INDUSTRIAL VISIT TO ESCORTS PVT LTD BANGALORE, KARNATAKA

### INDUSTRIAL VISIT TO AUTOMOBILE INDUSTRY

#### COURSE OBJECTIVES:

- To provide students with hands-on exposure to the real-world application of theoretical knowledge
- To educate students about safety protocols and compliance standards

#### COURSE OUTCOMES:

- Students gain a deeper understanding of the practical aspects of the automobile industry
- Students become familiar with the latest automotive technologies

The students of department of Automobile engineering visited N M W Enterprises, Bangalore, Karnataka on May 6, 2023. The industrial visit was scheduled in two parts consisting of training session and shop floor visit. The students were able to get familiar with the industrial standards as well as the production process and they got an onsite experience of the core subjects like Auto Power Plant(AUT 204) and Auto Transmission(AUT 206).

Students of Automobile Engineering Department visiting NMW Enterprises, Bengaluru on 6/5/23

To,

Assistant Engineer

Irrigation Department

Idukki

2/3/23

Dear Sir/Mam,

As per our conversation, 24 students from IV<sup>th</sup> semester B.Tech Civil Engineering accompanied by 2 faculty will be visiting the industry as part of an educational industrial visit. The visit aims to provide our students with practical exposure to the industrial environment, allowing them to gain insights into real-world applications of the theoretical knowledge they acquire in classrooms. It will also serve as an opportunity for our faculty members to engage with industry professionals, fostering collaboration and knowledge exchange.

We assure you that the visit will be conducted with the utmost respect for your facility and operations. Our students and faculty members will adhere to all safety regulations and guidelines provided by your staff during the visit.

Thank you for considering our request.

The list of students and faculty members who will be participating in the visit are attached.

Thanking You,

Dr. Anitha G. Pillai

## FIELD VISIT TO CHERUTHONI DAM AND ARCH DAM

Date of visit: 12th March 2023

Place: Cheruthoni Dam and Idukki Arch Dam

### INDUSTRIAL VISIT TO DAM SITE

A site visit to Cheruthoni Dam and Idukki Arch Dam was organised by the Civil Engineering Department of SCMS School Of Engineering and Technology, Karukutty on 12th, March, 2023. A group of 24 students got to learn about the construction, the history of the Cheruthoni dam and Idukki Arch dam, accompanied by the faculty members Dr. Sanju Sreedharan, Associate Professor and Stifin Benny, Assistant Professor of the Department of Civil Engineering.

### COURSE OBJECTIVES

To provide students with hands-on exposure to the real-world

To explore the geological and geotechnical considerations involved in dam construction

### COURSE OUTCOMES

Students gain a practical understanding of dam construction.

Students become more aware of safety protocols and practices in engineering projects

### SUMMARY

Students reached the destination in 12<sup>th</sup> march 2023 evening. The Cheruthoni Dam is a 138m tall concrete gravity dam, it is the biggest gravity dam of Kerala. This dam was constructed in 1976 as part of the Idukki Hydroelectric Project along with two other dams Idukki and Kulamavu. HCC (Hindustan Construction Company Ltd.) built the dam, and S.N.C Inc., a Canadian company, served as the consultant. Three dams—Idukki, Cheruthoni, and Kulamavu—that hold back water have created a single reservoir that covers 60 km<sup>2</sup> and is 2300 feet above mean sea level. The maximum water level for Cheruthoni dam is 734.30 m, and full reservoir level is 732.62 m.

The Idukki Dam is the tallest double curvature arch dam in Asia and was built across the Periyar River in a small gap between two granite hills, locally known as Kuravan 5 and Kurathi hills. Idukki .

The region where the dam is located may have quite severe seismic activity. Rapid reservoir filling after the August 2018 flood that devastated Kerala is thought to have the potential to cause powerful earthquakes in regions susceptible to reservoir—induced seismicity. The epicentre occurred only 25 kilometres from the Idukki dam, which has a 100-metre-high water column, which is two of the most crucial elements in reservoir-induced seismicity.

*Stifin Benny*  
PRINCIPAL  
SCMS SCHOOL OF ENGINEERING & TECHNOLOGY  
VIDYANAGAR, PALLISSERY, KARUKUTTY  
ERNAKULAM, KERALA-683 576

Teachers gave an explanation of the structure's advantages and the fluid mechanics that supported it.. Strong canyon side walls are necessary to withstand the stresses of the arch created by the water load carried by the activity of the arch.

Students from Department of Civil Engineering visited Idukki Dam on 12/3/23

**FIELD VISIT TO ANASWARA CONSTRUCTIONS ERNAKULAM**

**COURSE OBJECTIVES**

To provide students with hands-on exposure to the real-world

To explore the geological and geotechnical considerations involved in building construction

**COURSE OUTCOMES**

Students gain a practical understanding of building construction.

Students become more aware of safety protocols and practices in engineering projects

The students of 6<sup>th</sup> semester Civil Engineering Department had their industrial visit to Anaswara constructions at Marad, Ernakulam on 10/3/23. The main objective of this visit was to understand the construction procedure of different components of building and to learn and understand the precautions & safety measures at Construction site. The visit was organized in 4 different sessions with each batch containing around 15-20 students.

Students of 6<sup>th</sup> semester Civil Engineering Department visiting Anaswara construction site on 10/3/23

The students and faculty members were welcomed by the Project Engineer of the Construction site. He explained the procedure of construction of various components of the building in detail. He also explained about the safety measures as well as precautions to be taken during the whole period of construction project. He explained the procedure and importance of formwork & curing process adopted during construction. He further gave a detailed explanation to the students about the different types of building materials used in construction and tests carried out on the building materials before its use in construction. Students were explained about various equipment such as Concrete Mixer. The visit proved to be very much useful for student for their future field practice.

Dear Sir/Mam,

As per our conversation, 66 students from VIII<sup>th</sup> semester B.Tech Civil Engineering and 12 students from M.Tech Computer Aided Structural Engineering accompanied by 2 faculty will be visiting the industry as part of an educational industrial visit. The visit aims to provide our students with practical exposure to the industrial environment, allowing them to gain insights into real-world applications of the theoretical knowledge they acquire in classrooms. It will also serve as an opportunity for our faculty members to engage with industry professionals, fostering collaboration and knowledge exchange.

We assure you that the visit will be conducted with the utmost respect for your facility and operations. Our students and faculty members will adhere to all safety regulations and guidelines provided by your staff during the visit.

Thank you for considering our request.

The list of students and faculty members who will be participating in the visit are attached.

Thanking You,

Dr. Anitha G. Pillai

## SITE VISIT REPORT 2023

### SITE VISIT TO CHALAKUDY UNDERPASS CONSTRUCTION

#### COURSE OBJECTIVES

To provide students with hands-on exposure to the real-world

To explore the geological and geotechnical considerations involved in construction

#### COURSE OUTCOMES

Students gain a practical understanding of underpass construction.

Students become more aware of safety protocols and practices in engineering projects

Students of civil engineering departments from various batches visited the Chalakudy underpass construction site on 24<sup>th</sup> march 2023 to study the new methods in the construction of toll roads. Chalakudy underpass construction uses a new technology for underpass construction. It is a method of strengthening the soil like reinforcing concrete by placing steel wires and making it economic as well as eco-friendly.

The new technical method of construction of protection wall of Chalakudy underpass on the national highway is introducing a new method of constructing an underpass eco-friendly and economic among the engineering students. A Mechanically Stabilized Earth Retaining Wall or MSE Wall is constructed to protect the sides of the road. Steel wire reinforced concrete is used to strengthen the soil. This Ordinary concrete reinforcement is better than Reigning wall which can handle the weight of the vehicles. That gives it as an advantage. This technique takes less time in construction as well as less money is used. Currently in different parts of the country uses this method for supplementary roading of bridges.

Civil Engineering students at the site of Chalakudy underpass construction on 24/3/23

Project Manager Anthony sir, explained various aspects of the constructions of the underpass. Geo-Grid was used to strengthen the soil in the construction . The teachers of the Civil engineering department Dr.Rahul R.Pai , Nandita Mohan, Mechanical Department Teacher K.K.Gopalakrishnan were also present. Saneesh Kumar Joseph (MLA), (Municipal Member) V.J. Joji also interacted with us and explained the importance and the methods used for construction.

Dear Sir/Madam,

Greetings from SCMS School of Engineering and Technology (SSET).

The third-year (semester 6) B. Tech students of SSET studying Computer Science and Engineering plan to visit your esteemed organization on 9/3/2023 as part of their industry visit. There will be 66 students and the team will be accompanied by twofaculty members from this institution.

It is requested that permission be granted for the visit and a confirmation mail forwarded to us as a reply to this mail.

Kindly acknowledge.

Thanks and Regards,

**Dr. Anitha G. Pillai**

## INDUSTRIAL VISIT REPORT

**BATCH: 2021-2025, COMPUTER SCIENCE & ENGINEERING-2**

**AY: 2022-2023**

### **SITE VISIT TO ZEPHYR SOLUTIONS**

#### **COURSE OBJECTIVES**

To provide students with hands-on exposure to the real-world

To help students understand the various phases of software development

#### **COURSE OUTCOMES**

Students gain a practical understanding of software projects.

Students become more aware of safety protocols and quality assurance processes

On March 9<sup>th</sup>, 2023, students from S6 CS2 visited Zephyr Solutions, a leading technology company specializing in networking. We received a tour of the company's networking divisions, where we learned about the latest developments in networking technology, including software-defined networking (SDN) and network function virtualization (NFV). The experts at Zephyr Solutions also demonstrated their latest technologies in the field of networking.

**INDUSTRIAL VISIT TO SOFTTECH SOLUTIONS**

**BATCH: 2021-2025, COMPUTER SCIENCE & ENGINEERING-1**

**AY: 2022-2023**

**COURSE OBJECTIVES**

To provide students with hands-on exposure to the real-world

To help students understand the various phases of software development

**COURSE OUTCOMES**

Students gain a practical understanding of software projects.

Students become more aware of safety protocols and quality assurance processes

On March 3, 2023, students from S6 CS 1 visited Softech Spectrum Solutions, a leading technology company specializing in networking. We received a tour of the company's networking divisions, where we learned about the latest developments in networking technology, including software-defined networking (SDN) and network function virtualization (NFV). The experts at Softech Spectrum Solutions also demonstrated their latest technologies in the field of networking.

Dear Sir/Mam,

As per our conversation, 205 students from I semester B.Tech Computer Science Engineering accompanied by 2 faculty will be visiting the industry as part of an educational industrial visit. The visit aims to provide our students with practical exposure to the industrial environment, allowing them to gain insights into real-world applications of the theoretical knowledge they acquire in classrooms. It will also serve as an opportunity for our faculty members to engage with industry professionals, fostering collaboration and knowledge exchange.

We assure you that the visit will be conducted with the utmost respect for your facility and operations. Our students and faculty members will adhere to all safety regulations and guidelines provided by your staff during the visit.

Thank you for considering our request.

The list of students and faculty members who will be participating in the visit are attached.

Thanking You,

Dr. Anitha G. Pillai

## FIELD VISIT TO CIAL

### COURSE OBJECTIVES

To provide students with hands-on exposure to the real-world

To help students understand the various phases of software development

### COURSE OUTCOMES

Students gain a practical understanding of software projects.

Students become more aware of safety protocols and quality assurance processes

A team of 205 students and two faculties from SCMS School of Engineering and Technology visited CIAL (Cochin International Airport) in Kochi on the 30th Sep 2022. They visited the airport to study in detail about the different software's used in the functioning of airport.

Students visiting CIAL on 30/9/2022

The following students participated in the event:

10/3/23

Dear Sir/Mam,

As per our conversation, 124 students from B.Tech Computer Science Engineering and Master of Computer Applications accompanied by 2 faculty will be visiting the industry as part of an educational industrial visit. The visit aims to provide our students with practical exposure to the industrial environment, allowing them to gain insights into real-world applications of the theoretical knowledge they acquire in classrooms. It will also serve as an opportunity for our faculty members to engage with industry professionals, fostering collaboration and knowledge exchange.

We assure you that the visit will be conducted with the utmost respect for your facility and operations. Our students and faculty members will adhere to all safety regulations and guidelines provided by your staff during the visit.

Thank you for considering our request.

The list of students and faculty members who will be participating in the visit are attached.

Thanking You,

Dr. Anitha G. Pillai

## **Report on Industrial Visit to UST Global, Info Park, Kochi**

### **COURSE OBJECTIVES**

To provide students with hands-on exposure to the real-world

To help students understand the various phases of software development

### **COURSE OUTCOMES**

Students gain a practical understanding of software projects.

Students become more aware of safety protocols and quality assurance processes

On 22nd March 2023, 144 students from SCMS School of Engineering and Technology visited UST, located in Info park, Kochi, as a part of the industrial visit program. The visit was divided into two parts: Bay walk and Managerial session.

The Managerial session was conducted by Ms Elsamma, who talked about the criteria required for students to join the company. She also explained the various entertainment facilities provided by the company and how they contribute to the overall work-life balance of the employees. The session was interactive, and the students got an opportunity to ask questions and clarify their doubts.

The students found the visit informative and engaging. They appreciated the efforts put in by the company to provide a conducive work environment and maintain a healthy work-life balance for its employees. The visit gave the students an insight into the workings of a leading IT company and helped them understand the practical applications of the theoretical concepts they learn in their classrooms.

Overall, the visit to UST was a great learning experience for the students, and it helped them gain practical knowledge and understand the industry better.

**INDUSTRIAL VISIT REPORT**

**BATCH: 2021-2025,**

**S4 DATA SCIENCE, S4CS1, S4CS2 AY: 2022-2023**

**COURSE OBJECTIVES**

To provide students with hands-on exposure to the real-world

To help students understand the various phases of software development

**COURSE OUTCOMES**

Students gain a practical understanding of software projects.

Students become more aware of safety protocols and quality assurance processes

On 3<sup>rd</sup> March 2023, a group of 186 students from the Computer Science (Branch: Data Science), CS1, CS2 department of SSET visited Spectrum Infotech, a leading IT solutions provider based in Southern Ernakulam. The students were accompanied by the faculty members (Mrs. Athira Manikuttan and Mr. Varun G Menon, Ms. Surya S G, Mr. Mahesh K M, Mr. Akhil Baby, Ms. Divya M) and the purpose of the visit was to provide the students with an opportunity to gain practical knowledge and insights about the IT industry.

**Visit to Spectrum Infotech:**

The staff at Spectrum Infotech welcomed the students and provided an overview of the company's operations. The students were briefed about the company's services, including software development, network design and implementation, server maintenance, and cybersecurity solutions.

The staff demonstrated various aspects of network design and implementation, such as setting up networks for homes, small offices, and buildings. They also explained the importance of security measures in network design, such as firewalls, anti-virus software, and intrusion detection systems.

**About the Company:**

Spectrum Infotech is a well-established IT solutions provider, catering to clients across different industries. They have a strong presence in India, with offices in several cities, including Southern Ernakulam.

**Conclusion:**

Overall, the visit to Spectrum Infotech was informative and insightful. The students gained valuable knowledge about the IT industry and its operations. The staff at Spectrum Infotech were approachable, and they patiently answered all the questions raised by the students. The visit was a valuable experience, and the students expressed their appreciation for the opportunity to learn from industry professionals.

Power Best Electricals

Ernakulam

24/2/23

Dear Sir/Mam,

As per our conversation, 121 students from B.Tech Electrical & Electronics Engineering and Electronics and Communication Engineering accompanied by 3 faculty will be visiting the industry as part of an educational industrial visit. The visit aims to provide our students with practical exposure to the industrial environment, allowing them to gain insights into real-world applications of the theoretical knowledge they acquire in classrooms. It will also serve as an opportunity for our faculty members to engage with industry professionals, fostering collaboration and knowledge exchange.

We assure you that the visit will be conducted with the utmost respect for your facility and operations. Our students and faculty members will adhere to all safety regulations and guidelines provided by your staff during the visit.

Thank you for considering our request.

The list of students and faculty members who will be participating in the visit are attached.

Thanking You,

Dr. Anitha G. Pillai

## **COURSE OBJECTIVES**

To provide students with hands-on exposure to the real-world

To help students understand the various phases of electronic industry

## **COURSE OUTCOMES**

Students gain a practical understanding of electronics projects.

Students become more aware of safety protocols and quality assurance processes

The industrial visit to Power Best Electricals Company on March 10th, 2023, was a valuable experience for the students of S4 ECE & EEE and S2 ECE & EEE. The company, located in a prime industrial area, impressed the students with its well-maintained facility and wide range of electrical engineering services.

Upon arrival, the students were warmly welcomed by the company's representatives, who provided a brief introduction to the company's operations. Power Best Electricals offers a comprehensive range of services, including the design, erection, testing, and commissioning of LT and HT switch gears, equipment, and lighting installations. They also specialize in the repair and overhauling of transformers, generators, motors, and transformer filtration. The company's design and drawing division, equipped with CAD facilities, further enhances its capabilities.

One of the major services highlighted during the visit was the design and commissioning of HT and EHT substations on a turnkey basis. The company's team of specialized engineers demonstrated their expertise in the design and commissioning of synchronization panels for captive power systems, which play a crucial role in ensuring smooth operations in industries. The students also had the opportunity to tour the company's fabrication unit, which is well-equipped to manufacture various electrical equipment, including switchboards, control panels, motor control centers, distribution boards, industrial bus ducts, and material handling equipment.

The visit also shed light on Power Best Electricals Company's preventive maintenance services, provided by their dedicated AMC (Annual Maintenance Contract) team. They cater to various industries, such as VSNL, different steel melting plants, distilleries, and more, ensuring the proper functioning and longevity of electrical systems.

The company's expertise extends across multiple industries, including power generation, transmission, and distribution, industry, transportation, and renewable energy. Throughout the visit, the company's commitment to quality and customer satisfaction was evident, leaving a positive impression on the students.

Overall, the industrial visit to Power Best Electricals Company proved to be highly informative and engaging. The company's wide range of services, from design and commissioning to fabrication and maintenance, makes them an ideal partner for organizations seeking electrical engineering solutions.

18/2/23

Dear Sir/Mam,

As per our conversation, 49 students from B.Tech Electrical & Electronics Engineering and Electronics and Communication Engineering accompanied by 2 faculty will be visiting the industry as part of an educational industrial visit. The visit aims to provide our students with practical exposure to the industrial environment, allowing them to gain insights into real-world applications of the theoretical knowledge they acquire in classrooms. It will also serve as an opportunity for our faculty members to engage with industry professionals, fostering collaboration and knowledge exchange.

We assure you that the visit will be conducted with the utmost respect for your facility and operations. Our students and faculty members will adhere to all safety regulations and guidelines provided by your staff during the visit.

Thank you for considering our request.

The list of students and faculty members who will be participating in the visit are attached.

Thanking You,

Dr. Anitha G. Pillai

Principal

# **A REPORT ON INDUSTRIAL VISIT DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING SCMS SCHOOL OF ENGINEERING AND TECHNOLOGY**

**DATE: 22-03-2023 TO 27-03-2023**

**PLACE OF VISIT: GOA, (Industry -Atlantis Mariana, Chowgule), Dandeli**

## **COURSE OBJECTIVES**

To provide students with hands-on exposure to the real-world

To help students understand the various phases of electronic industry

## **COURSE OUTCOMES**

Students gain a practical understanding of electronics projects.

Students become more aware of safety protocols and quality assurance processes

Students of Electronics and communication engineering department and Electrical and Electronics Engineering department of SCMS school of engineering and technology had organized an industrial visit on 22-03-2023 to 27-03-2023 to GOA, (Atlantis Marina, ship building company Chowgule). Ms. Praveena S kammath , and Ms.Retty George of Electronics and communication department were the coordinator faculty for the industrial visit. The industrial visit was to Chowgule Shipyard in Goa, India. It was an enlightening experience to see how a world-class shipyard operates and to learn about the various processes involved in shipbuilding and repair. During the visit, we got to witness the various stages of the shipbuilding process, from the initial design phase to the final construction and launch.

The knowledgeable and friendly staffs at Chowgule Shipyard were kind enough to explain the technical aspects of shipbuilding and repair, and we were impressed by their attention to detail and their commitment to safety. We also got to see some of the specialized equipment and tools used in the shipyard, including cranes, welding machines, and cutting tools. Overall, the visit to Chowgule Shipyard was a wonderful learning experience that gave us a newfound appreciation for the skill and expertise required to build and maintain ships.

A handwritten signature in blue ink, appearing to read "Anitha", written over a horizontal line.

# INDUSTRIAL VISIT REPORT - SCET

**Industry Name:** Aviation Laboratory of Southern College of Engineering and Technology, Chalakudy, Kerala.

**Location:** Luiz Nagar, Near KSRTC Bus Stop, Chalakudy, Kerala 680307 **Visit**

**Date:** 07.12.2022

**Visit Time:** 9:30 – 11.30 AM

**Batch:** S5 ME, 2021-2024 (66 students)

## COURSE OBJECTIVES

To provide students with hands-on exposure to the real-world

To help students understand the various phases of aviation industry

## COURSE OUTCOMES

Students gain a practical understanding of mechanical projects.

Students become more aware of safety protocols and quality assurance processes

## ABOUT SOUTHERN COLLEGE OF ENGINEERING AND TECHNOLOGY

The Southern College of Engineering & Technology is one of the pioneers in aviation training in Kerala, and it is established in 1955. The college is situated at Chalakudy in Thrissur District of Kerala. The campus is located in a 15 acre estate by the banks of the Chalakudy river, about a kilometer from Chalakudy Railway station and KSRTC Bus stand. Hostel facilities are available for both boys and girls students.

The Objective of the institute is to provide students with necessary knowledge, experience and skill on Aircraft Maintenance Techniques in order to pass the Aircraft Maintenance Engineering (AME) license examination conducted by Director General of Civil Aviation(DGCA).

This Institute is approved by DGCA (Govt. of India) under CAR Section 2, Series 'E', Part VIII to conduct Aircraft Maintenance Engineering (AME) training in Mechanical Stream (Heavy Aeroplane, Light Aeroplane, Piston Engine, and Jet Engine). Further this Institute is Approved by DGCA under CAR 147 (Basic) to conduct Basic Aircraft Maintenance Training Course in Category B1.1 (Aeroplane Turbine).

Southern college of Engineering & Technology, Chalakudy (MTO) has made a viable written agreement with Air India Engineering Services Limited, Thiruvananthapuram and Air Works India (Engineering) Pvt. Ltd., Hosur for imparting 30% of the total Practical Training (08 Weeks)

The training program consists of theoretical and practical training in various aircraft maintenance engineering subjects which includes air regulation, electrical & avionics fundamentals, general engineering & maintenance practices, aerodynamics, turbines, aeroplane aerodynamic, structures and system, gas turbine engine, propeller etc. Total curriculum is divided in to class room instructions and associated practical training.

## ABOUT THE INDUSTRIAL VISIT

The industrial visit to Southern College of Engineering and Technology, Chalakudy, Kerala. was planned as an attempt to overcome the short coming of the academic curriculum and interaction to outside world. As per the latest curriculum, core subjects like Compressible Fluid Flow(CFF) & Jet propulsion were excluded and a fundamental understanding on the topics is essential for a successful Mechanical Engineer. Additionally, industrial visits are prescribed in the curriculum, besides getting a basic idea about the aviation technology and the level of practical knowledge required by an aircraft technician.

The visit was meant for fifth semester Mechanical Engineering students of SCMS School of Engineering and Technology, Karukutty, Ernakulam. The group of students started the visit from the college campus at 9.00 am, and they were accompanied by Dr. Vidya Chandran, Dr. Gibin George and Mr. Gopalakrishnan K K. The group arrived at Southern College of Engineering and Technology, Chalakudy at 9.30 am. The students were welcomed by Shri. M.P.S. Panicker Quality Manager/ Instructor of SCET.

The students were directed to the seminar hall after verification checks. On behalf of their whole faculty Shri. M.P.S. Panicker Quality Manager/ Instructor of SCET gave a basic intro about the college and its institution, about the goal, their teaching service and their aim.

## INTRODUCTORY SESSION

Shri. M.P.S. Panicker started with an introduction to various types of engines used in the aircrafts and their working principles. The engines discussed were reciprocating type piston cylinder engines, Turboprop, turbofan and turbojet type of engines. He also talked about the basic working of tails, operating of flaps which were manual before now its fully automatic.

Then he moved on to the different topics like drag and lift, how turbulence affect the aerodynamics of an aircraft, type of fuel used and how lightning affect the electronics or the controls of the aircraft. He also talked about the shape or aerodynamics used in the aircraft wings, storage of the fuel, taught about Low Voltage (LV) components, use of Auxiliary Power Unit (APU) in an aircraft and

*Joshi*  
PRINCIPAL  
SCMS SCHOOL OF ENGINEERING & TECHNOLOGY  
LUIZ NAGAR, PALLISSERY, KARUKUTTY  
ERNAKULAM, KERALA-683 576

the use of Black Box

The material used to make an aircraft, about the metals used to prepare the body of the aircraft, aluminum alloys 7075 are basically used to prepare the body of the aircraft were also a topic for discussion. Some of the alloys are Galfenol, Galinstan, Electrum, Vanadium, Nickel, etc.

Finally, the pressure system working in the aircraft, gave an introduction about how the aircraft turns using its flaps and tails, told us about the thrust working in an engine to push the aircraft forward which is related to the “Newtons Third Law of Motion – Every Action has its Equal and Opposite Reaction”, told about the type of tyre used for landing, how the aircraft slows down using the retraction of its flaps.

## INSIDE THE AVIATION LABORATORY

Places that we explored in the laboratory

1. Machine Shop
  - Saw the turning machines
  - Saw welding machines and cutters to cut the metal sheets
2. Engines used in aircraft
  - Saw the cross sections of the turbo-jet engines
  - Saw the cross-sections of reciprocating engines
  - Types of propellers used in aircraft
3. Aircraft bodies
  - The old type and the new one
4. Types of flaps used in aircraft used to control the aircraft
5. Helicopter engine division

PRINCIPAL  
SCMS SCHOOL OF ENGINEERING & TECHNOLOGY  
VIDYANAGAR, PALLISSERY, KARUKUTTY  
ERNAKULAM, KERALA-683 576

## WHAT DID WE LEARN

Various mechanical principles and theory related to combustion in turboprop, turbofan and turbojet engines, Industrial level working pattern and what to expect from a core mechanical company. We were able to learn the advancement of technology with respect to the tools we had in our college lab.

## CONCLUSION

The industrial visit was useful for all the students that attended the visit. It was a opportunity to realize the role of mechanical engineering across major domains and was able to relate offer present our academic content to practical applications. This gave us a better clarity to understand what we can achieve as a mechanical engineer and how wide our possibilities. The visit came to an end by the vote of thanks delivered by Austin Benny of S5 ME and Dr. Vidya Chandran. The group returned from SCET and reached the campus at 12.30 pm.

## INDUSTRIAL VISIT REPORT

A complete report on industrial visit organized by SCMS SCHOOL OF ENGINEERING AND TECHNOLOGY , for the students of Mechanical Engineering [4th SEM] in order to get the practical knowledge about advanced technology used in manufacture of agricultural Tiller,Tractor,Reaper and Diesel Enginescarried out by Kerala Agro Machinery Corporation Ltd. (KAMCO)

### COURSE OBJECTIVES

To provide students with hands-on exposure to the real-world

To help students understand the various phases of aviation industry

### COURSE OUTCOMES

Students gain a practical understanding of mechanical projects.

Students become more aware of safety protocols and quality assurance processes

- DETAILS OF JOURNEY

SCMS SCHOOL OF ENGINEERING AND TECHNOLOGY had organized an industrial visit on 10,11&12 of March, 2023 to KAMCO located in Athani for the students of Mechanical Engineering.

Assistant Prof. Jose Sheril D'cotha, Assistant Prof. Francis & Assistant Prof. Preemawere the coordinators faculty for the industrial visit. We started travelling from the college campus at 10:30 am via private bus. Totally 49 students along with 3 coordinators faculty were there in the journey.

- COMPANY PROFILE

KAMCO was started way back in 1973 to aid farmers in their quest for higher productivity, more prosperity and greater happiness in their lives. KAMCO products for mechanized farming are manufactured in 5 production units. A 700-strong team of highly qualified and experienced Engineers, Professionals, and Technicians form the foundation of the continued success of KAMCO in achieving their goals. More than 250 dedicated vendors and over 80 dealers align with KAMCO in a successful partnership of providing exceptional assistance to the farming sector. No wonder KAMCO has become an acronym for Quality in the minds of hundreds of thousands of customers in India and abroad.

## PLACES VISITED

We were guided through the assembly section of the tiller and various manufacturing machines with their purpose were explained. After visiting the KAMCO, we went straight to Kodaikanal and stayed at SANDHANAM VILLA. The next day after breakfast at around 8:30 AM we went for sightseeing at various tourist destinations like Guna Cave, Pine forest, Kodaikanal Lake. We left from Kodaikanal at 5pm and headed towards Marayoor. On the third day of our Industrial Visit we went for offroad jeep trekking, visited fresh fruits garden, sugarcane plantation, Sandal wood forest, Erachilpara waterfalls and Honey rock. By 5 pm we started to head towards college and reached the college premises at 11pm.

• CONCLUSION

We are thankful to all our faculties for organizing such an informative event for the development of our practical skills regarding the various machining tools used and their various operations. We got the knowledge on different types of machines used in KAMCO and had an opportunity to research on it. We hope to get more chances further to have such an informative & wonderful experiences of visiting different industries in the future

**CERTIFICATE**

This is to certify that 66 Third Year Mechanical Engineering (semester 6) students from the SCMS School of Engineering And Technology visited our factory along with two faculty members of on 09<sup>th</sup> March 2023 as a part of their academic program. Students list attached.

They had taken keen interest and enthusiasm to understand about the industry and the manufacturing processes during this industrial visit.

We wish all success for their good future

Thanking you.

Yours faithfully

# INDUSTRIAL VISIT REPORT

## COURSE OBJECTIVES

To provide students with hands-on exposure to the real-world

To help students understand the various phases of aviation industry

## COURSE OUTCOMES

Students gain a practical understanding of mechanical projects.

Students become more aware of safety protocols and quality assurance processes

**Industry Name:** Pilotsmith (India) Pvt.Ltd, Kallettumkara, Thrissur

**Location:** Near Railway Station, Kallettumkara, Chalakudy-Irinjalakuda Road, Thrissur, Kerala, 680683

**Visit Date:** 09-03-2023

**Visit Time:** 9:30 – 11:30 PM

**Batch:** S6 ME, 2020-2024

## ABOUT PILOSMITH

Pilotsmith (India) Pvt. Ltd., the pioneers in the 'Indian Food Processing and size reduction equipments' has extensive customer base and strong dealer network. Since 1985, Pilotsmith (India) Pvt. Ltd. Has created and improved Food Processing and size Reduction Technology with continuous effort and time invested in Research and Development.

Pilotsmith (India) Pvt. Ltd. Undertakes design, development and production of specialized equipments and automated process to the individual customer requirements. We can undertake complete turnkey project in the field of Food Processing , Ayurvedic medicine manufacturing, Chemical & Mineral processing, Pharmaceuticals, cattle & poultry field manufacturing etc. We have a variety of equipment which has been patented and approved by Central Government Institutions.

A handwritten signature in blue ink, appearing to be "Joshi".

## ABOUT THE INDUSTRIAL VISIT

The industrial visit to Pilotsmith India Pvt Ltd, Kallettumkara was done on 9<sup>th</sup> March 2023. It is an industry which undertakes the design, development and production of specialized equipment and automated processes to the individual customer requirements and for mass production industries as well. We reached the industry by 11am. We were welcomed by the

staffs and were introduced to their line of products. We were also explained in detail about the manufacturing and working of the products as well. We were then guided to their factory outlet where we got to know about different manufacturing techniques used for production. We were also introduced with a few more products manufactured by them. And finally our industrial visit has come to an end. We left there by 1pm.
