To Familiarize Arduino Programming, Simulation, PCB Designing and Led Bulb Manufacturing/ Repair to students

### About the program:

SCMS School of Engineering and Technology (SSET), Department of Electrical & Electronics & SSET IEDC has conducted a two day workshop on Familiarization of Arduino Programming, Simulation, PCB Designing and Led Bulb Manufacturing/ Repair at Computer Lab IV SSET (on 16/12/2022) and at control & power electronics lab (on 17/12/22)

During the day 1 session, Mr. Ashraf Saleem, Entrepreneur, LED manufacturing unit, Mala taught the EEE students about the basics of LED bulb, its driving circuits, tools and equipment's required for manufacturing / repair of the LED bulbs. The

forenoon session was focussed on fundamental theory, designing of components, Pcb soldering etc. The Afternoon session focussed more in to assembling the components, testing the assembled bulb, repair of faulty led bulbs after testing. The students really enjoyed the day 1 sessions and could easily assemble and repair the LED bulbs.

Day 2 forenoon session was engaged by Mr. Varun Jose, Assistant Professor, EEE Department, SSET & focussed on familiarization of proteus software – the ISIS and the ARES package. The fundamental relay circuit simulation using ISIS and the corresponding PCB drafting of the same circuit using ARES were taught to the students.

Day 2 afternoon session was engaged by Dr. Jayanand B, HOD, EEE Department, SSET & focussed on Arduino IDE and interfacing. The Arduino based line follower robot, its working and real time programming etc were demonstrated.

The students really enjoyed the two-day workshop as it was more in to hands on sessions and they shared positive feedbacks about all the sessions and told that this would help them in their final year project.

The practical section

Easy to understand

Practical oriented session

Hands on sections

The facilitators and the value they provided for us

Practical sessions

Got to learn some new skills.

Good exposure

The topics taken in workshop were good and easy to understand

Self LED repairing

Led practicals were very engaging.

The last section amazing.

The workshop was very much informative

Practice sessions

It was a well-organized and interesting workshop. My favorite part of this workshop is when we all were able to light up the LED bulbs with our effort. We are able to work on a program and wield that familiarity to create more projects after this workshop.
