Green audit / Environment Audit Details

TREE WALK

DATE:26/03/2021

The NSS volunteers of SCMS School of engineering and technology jointly conducted a tree walk to conserve trees on the roadside, prone to deforestation and other man-made practices. An enthusiastic bunch of volunteers started their journey from our college (palissery) to koratty covering 6kms approximately in cycles. While on their way students identified the trees, their biological name, and species assigned to them, and took a count of the trees needed to be protected. Each of those trees will be provided with a nameplate and QR code assigned to them which will be covered in phase 2 of the session that is needed to be conducted.

Students in bicycles taking count of roadside trees in the Palissery Stretch

UNNAT BHARAT ABHIYAN (UBA) BASELINE HOUSEHOLD SURVEY

DATE:27/03/2021

During this time of the covid outbreak, strictly following the covid protocol, NSS volunteers of SSET conducted a survey covering houses under koratty panchayat. Volunteers were divided into groups by our volunteer secretaries, led by an executive panel member and each group was assigned a particular area for the survey. Volunteers were handed over the UBA baseline household survey forms having questions covering the water supply, waste management, inquiries regarding the pension received if any, and so on. Each of these questions in the said form was filled by our volunteers and was collected by our programme officers.

THIRUVAIRANIKULAM WORK

DATE: 09/01/2020 – 15/01/2020

The NSS technical cell unit of SCMS School of Engineering and Technology organized a 7-day camp at Thiruvairanikulam Mahadeva Kshethram from 9th to 15th January 2020. Under the main supervision of Sujay K Sir, and Rakesh A sir, other officials including Vijay Sir, and other senior volunteers, the camp aimed for volunteers to establish Green Protocol in and around the temple premises. The camp generally aimed for a clean, plastic free zone and better response for plastic disposal from tourists travelling from far end places to attend the temple rituals.

WASTE MANAGEMENT SURVEY

DATE: 09/03/2019, 10/03/2019,16/03/2019

The NSS volunteers of SCMS School of Engineering and Technology conducted a waste management survey at Karukutty Panchayat. The survey was done for four days. The main aim of the survey was to know whether the waste management is proper in the area. Volunteers also suggested proper and new waste management techniques. It was a good experience for volunteers as they were also able to know more proper methods of waste management and how it has to be done.

ENERGY AUDIT AT NALUKETTU

DATE:15/06/2022

OnNSS Volunteers of SSET conducted ENERGY AUDIT at various houses at Naluketu. As the world is facing several energy shortage issues, as a conservation method volunteers gave proper knowledge about the wastage and usage of electricity at home. Several methods for conservation of electricity were also intimated.

STUDENTS PARTICIPATED IN VOLUNTEERING:

1. Sobin Varghese	2. Jeswin Joy C
3. Thushar Shyju	4. Teres Antu
5. Jeeva Jose	6. Vishnu Valsan
7. Ram Sankar	8. Adithya Hari
9. Fahad M Fakhrudheen	10. Aadhilsha shanavas

Clean and green campus initiatives – Activity Details

LOVE PLASTIC

Date : 16/10/2022

Love plastic was an initiative by the NSS units of SSET targeted to clean the campus from plastic materials. On 16 th of October 2022 , the volunteers gathered at the campus at 9 am and the programme was officially begun with the presence of programme officers. Volunteers were divided into 4 groups and each group was assigned a particular area of the campus from where the plastic was meant to be collected. Volunteer group along with the supervision of group leaders and volunteer secretaries removed the plastic materials from the campus. After collecting the plastic materials an evaluation was done to sort out the sources of the plastic materials and discussed necessary actions to avoid such practices. A brainstorming was done among volunteers to reduce the presence of plastic materials in the campus. The collected plastic materials were properly disposed of.

Bio-farming – An initiative for sustainability

At SSET Campus, a transformative approach to agriculture takes root through the practice of bio farming. The program was initiated on 20-06-2020 to promote awareness of bio-farming among the students. Embracing sustainable methods and organic principles, the campus has become a hub for innovation in agricultural practices. Through bio farming, students and faculty engage in cultivating crops without the use of synthetic pesticides or fertilizers, prioritizing the health of both consumers and the environment. The lush fields of SSET Campus are a testament to the success of this endeavor, yielding bountiful harvests while preserving soil fertility and biodiversity. Beyond mere cultivation, bio farming at SSET serves as a living laboratory, where students gain practical insights into ecological balance, resource management, and the interconnectedness of food systems. As the campus continues to champion this holistic approach to agriculture, it not only produces nourishing crops but also cultivates a deeper understanding of our responsibility to steward the land for future generations.

Environment Day Celebration, June 2018 - Planting of Tree saplings within the campus

In June 2018, the campus of SSET was abuzz with enthusiasm and greenery as students and faculty came together to celebrate Environment Day with a meaningful initiative - the planting of tree saplings. With a commitment to sustainability and environmental stewardship, the campus community gathered to plant a variety of native saplings, fostering biodiversity and contributing to a healthier ecosystem. Under the shade of the already mature trees, students eagerly dug into the soil, each sapling representing a promise for a greener future. The event not only symbolized the collective dedication towards environmental conservation but also served as a hands-on learning experience, fostering a deeper connection to nature among the participants. As the saplings took root and began their journey towards maturity, they stood as tangible reminders of the ongoing efforts to protect and preserve our precious environment.

MARAM ORU VARAM

DATE: 05/06/2022

The "Maram Oru Varam" program was conducted by the NSS in collaboration with various organizations and local communities. The program was launched with the objective of planting an estimate of 100 trees in the college premises. The program was implemented in different phases, on November 5th 2022, starting from the identification of suitable planting sites, selection of tree species, and planting of saplings.

The program received an overwhelming response from volunteers, local communities, and government organizations. Volunteers from schools, colleges, and universities actively participated in the program. The planting of trees took place in various locations, including schools, public places, and forests.

The program also highlighted the need for sustainable development and the role of individuals in protecting the environment. The program had a significant impact on the participants, who became more aware of the environment and the importance of conservation.

PROMOTION OF ORGANIC FARMING

DATE: 13/06/2022

On 13th JUNE 2022, the NSS units of SCMS school of engineering and technology conducted a Programme for the Promotion of Organic Farming in the adopted village. The NSS volunteers visited several houses in the village and inspected their vegetable garden and recommended methods to improve the cultivation and demonstrated filling of grow bags for cultivation. 17 students participated from the institute

CANAL CLEANING

DATE: 09/07/2022,10/07/2022

The canal cleaning program undertaken by NSS SSET Unit No.182 and 328 in July showcased a commendable dedication to environmental preservation and community involvement. Through rigorous cleaning efforts and community engagement, the program succeeded in enhancing the canal's condition and instilling a sense of responsibility for the environment. The collaboration between NSS volunteers and local residents serves as a model for future endeavors in promoting sustainable practices.

AASHIYANA - Paper bag making

DATE: 26/09/2021

NSS unit of SSET organized a series of works for a week regarding sevana varam under the title "AASHIYANA" - work from home. Admitting the Covid situation, our NSS volunteers managed to make paper bags that would help in reducing the usage of plastic bags in our day-to-day life. Volunteers were asked to share the after pictures of the completed work through google forms. They were given one day for the making process. The pictures were shared accordingly and about 43 volunteers participated actively.

THAIVERU - Planting bamboo saplings at Thumburmuzhi Forest Area

DATE: 15/09/19

The NSS unit of SCMS SCHOOL OF ENGINEERING AND TECHNOLOGY (SSET), Karukutty in association with the forest department of Athirapally gave a helping hand to the hillock behind the cattle breeding farm, Thumburmuzhi, which had about 14 debris flows in the past two years during the devastating flood happened in Kerala. In the first phase of the project "Thaiveru", more than 50 bamboo saplings were planted at Konnakuzhy in Pariyaram grama panchayat near Athirapally on September 15, Sunday. The inauguration of the project was done by Mr. N Satheeshan (Forester,SFO) by planting bamboo sapling. Addressing of the gathering was done by Mr. N Satheeshan and Mr. Rakesh A(SSET programme officer) by explaining the positive effects of bamboo plants on controlling landslides. The project was volunteered by about 35 NSS volunteers of SSET and the residents of Konnakuzhy who dug the pits and planted bamboo saplings under the supervision and advice of officers of the forest department. The programme officer Rakesh A expressed an opinion of expanding this project to other NSS units of colleges in the state, thereby lending a hand to protect the mother earth.

STUDENTS PARTICIPATED:

1. ANSTON SEJO	2. KIRAN JOHN
3. ASWIN B	4. ANAKH VALSAN
5. JIBIN JOY	6. SARATH CHANDRAN
7. C S KRISHNADAS	8. RAGIN KRISHNA
9. KAILASNATH	10. PRANAV P
11. CHRISTOPHER XAVIER	12. ASWANTH R
13. ALINZ BENNY	14. ARJUN MOHAN
15. ATHUL P PRAKASHAN	16. GOKUL C S

CLEANING CAMPAIGN – Fort Kochi Beach

DATE: 22/04/2018

The NSS volunteers of SSET conducted a cleaning campaign at Fort Kochi beach in association with the YOUNG VIBES ASSOCIATION. The main aim was to make the people aware of the importance of disposing of waste properly into the waste bins placed & working towards making the beach clean.

The campaign helped in creating a sense of clean environment for a healthy society among the people. NSS volunteers monitored the activities of people and whenever people had thrown wastes, the volunteers without any hesitation collected and placed them in the waste bins which made people feel awkward about themselves. This would be possible only by cooperation from the people as well as the tourists in exercising discipline and not to indulge in throwing the waste over the beach which was achieved by the NSS volunteers through proper enlightenment.

This practice was highly effective since it made one rethink about how he or she also contributed towards polluting the environment and such a feeling when once developed in them would prevent them from repeating it at any public place. The combined effort of the volunteers and the association helped in achieving the goal of the campaign.
