5.4 Alumni Engagement

SCMS SCHOOL OF ENGINEERING AND TECHNOLOGY

Vidya Nagar, Palissery, Karukutty, Kerala 683576

5.4.1 There is a registered Alumni Association that contributes significantly to the development of the institution through financial and / or other support services

SSET has always taken pride in the wide network of alumni who are occupying coveted positions in various esteemed organisations in India and abroad. Since the inception of the institution, the role of alumni through its growth and development is quite significant. As the institution prospered, the association also grew in size with a formal structure.

SCMS Alumni Association was formally registered in 2017 covering all the institutions under the SCMS Group. It is an umbrella organization, coordinating many alumni chapters both national and international. The purpose of the SCMS Alumni Association is to support its members throughout the world with a comprehensive and wide range of professional and social activities to nourish the network and to promote SCMS Group of Institutions. The administration of the SCMS Alumni Association is vested with the Executive Committee consisting of the President, Secretary, Treasurer, Vice President and Joint Secretary and six members. The Committee is responsible for the affairs of the Association. The registered office of the Association is SCMS Campus, Prathap Nagar, Muttom, Aluva.

Alumni meets are conducted regularly at Bangalore, Chennai, Delhi, Dubai, Hyderabad, Kochi and Mumbai. During covid times these were held online. Such meets provide a great opportunity for alumni to reconnect with classmates, network with fellow alumni and meet their faculty members which in turn strengthen the ties between SCMS and alumni across different parts of the globe. In addition, alumni also deliver guest lectures, is part of IQAC, take the role of external examiners and also facilitates placement activities.

ALUMNI TALK ON CAMPUS TO CORPORATE

An alumni talk for the undergraduate students of Mechanical Engineering department was held on 08 Nov, 2022 on Google Meet and offline mode from 03.00 pm to 03.45 pm. We had our proud alumna as the speaker, Ms. Gopika Ganga Nair (2017-2021 batch). She is currently working as Graduate Engineer Trainee with Johnson and Johnson Pvt. Ltd., Aurangabad. She was former ASME student regional chair for Asia Pacific Region of student section enterprise committee. She is the current member at Large. This webinar is aimed at guiding our undergraduate students to bridge the gap between campus life and corporate world. The topic of the talk was "Campus to Corporate" which was intended to motivate the students to join various professional bodies in college.

REPORT ON ALUMNI TALK III

M Tech Environmental Engineering section of Department of Civil Engineering, SSET initiated with an alumni talk series “I am SSET- trained Environmental Engineer”. The first talk in this series was organized on 01st October 2021 from 10.00am to 11.00am by Er. Aleena James. The second talk was organized on 11th December 2021 from 10.30am to 11.30am by, Er. Ashly Mary Mammen, Assistant Design Engineer, Assystem Stup, Bengaluru (Batch 1M Tech EE 2015-2017). The first two talks were in online mode. The third talk was conducted in the SCMS Campus on 30th June by Er. Afifa K S, Environmental Engineer at Van Oord, UAE.

Dr. Ratish Menon, Professor, Department of Civil Engg, introduced the resource person to the participants. The first and second year M Tech Environmental Engineering students and

faculties of CE department were participated in the program. Afifa started off her session by describing about her memories of her campus life, activities / programs organized by them in the campus. She shared milestones in her career path. She explained in detail about her experiences of her professional life. She narrated her experience in working as Environmental Engineer with Van Oord, UDE in Land reclamation and marine works for the Dubai harbour master plan.

She had given guidelines to regarding the job opportunities available for M Tech Environmental Engineering graduates, importance of knowing basics to perform well during interviews and various software applications used in the field.

The event came to an end with a Q&A session. This inspiring session was organised with a total of 30 participants. M Tech students enquired on the job opportunities after M Tech course.

ASSET RADIANCE WEBINAR SERIES 1

On 6/9/2019, ASSET RADIANCE, an initiative of the Alumni Association of SSET (Dubai) was inaugurated (webcast) to provide exposure for students into the bigger global market and trigger thoughts of career specializations to choose. Through ASSET RADIANCE it is envisioned to support the future professionals and assist them to get industry ready after graduation. Emphasis will be laid on skill (technical & personal) development, guidance by way of sharing personal career journeys and experience gained to our students with an objective to help future professionals relate the knowledge gained in institution to the market.

Through ASSET RADIANCE, Alumni experts will be delivering multiple sessions mostly as webcasts on career paths and on emerging trends in the engineering sector.

Subsequently on 30/01/2020, Mr. Arun Mathews Kunnel, Digital Advancement Academy Manager, Hub Coordinator, Bentley Institute, Dubai (who helped in coordinating a core group) while he was in town came down to SSET and shared his journey of struggle and victory as a Civil Engineer.

A series of six webcasts under the banner of ASSET RADIANCE is to commence from 7 July 2020 and more of such series is to follow integrating alumni from across the globe.

ASSET Radiance'19

An Initiative by ASSET to support "Advancing Future Professionals"

ASSET-UAE (Alumni of SSET) is pleased to announce a new initiative to support the future professionals and assist them to get ready for the industry after graduation. Emphasis of the initiative will be skills (technical & personal) development guidance via sharing of personal career journey from alumni members. Alumni members will be sharing their personal work experience to help future professionals relate the knowledge they gain in university to the market.

As ASSET, we wish to provide exposure for students into the bigger global market and trigger thoughts of career specializations to choose. Alumni experts will be delivering multiple sessions on certain career paths and on new emerging trends in engineering sector. More details like structure of this interaction and topics will be addressed in upcoming event on **Friday, 06th September 2019 at 11.30 am IST.**

Agenda for the day

11.30 Introduction to ASSET and Key Members

11.45 What is Radiance'19?

Session Structure, Value Proposition, Topics for future Sessions

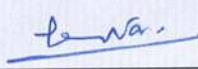

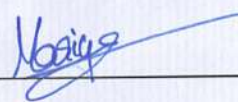

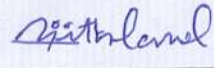

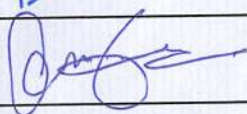

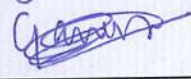

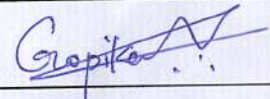

12.00 New Digital Ways of Engineering & Emerging Trends
