You MUST bring these original documents with you to enrol onto your course. Photocopies or electronic copies will NOT be accepted and you will not be able to enrol. Likewise, you may not be allowed to attend classes if originals of these are not provided.

Tuition Fees

The University will charge tuition fees in accordance with the 'Tuition Fee Terms and Conditions and Refund Policy. Please ensure that you read the 'tuition fee terms and conditions':

https://www.coventry.ac.uk/legal-documents/terms-and-conditions/

International Students (Non-EU) are required to pay a tuition fee deposit at each Academic Stage/Year to secure a place. Before you can fully enrol onto your course, or each Academic Stage/Year, £8000.00 of your full tuition fees for the relevant Academic Stage/Year must be received by the University. Please ensure you allow sufficient time (approx. 7- 10 working days) for your payment to be processed by your bank, received by the University

and credited in to your student account. You may not be able to attend classes and have full access to University facilities, if you do not fulfil all the requirements for enrolment.

If you have to extend your studies beyond the normal duration of the course (e.g. to repeat a year or resit examinations) the University reserves the right to charge you fees at a higher rate during the additional period of study.

This offer is produced on our understanding that you are an overseas fee payer. If for any reason you believe you are a home/EU student, you need to complete a fee assessment form and provide all supporting documents for us to assess and confirm your fee status. We will need this completed at least 8 weeks to the start of your course. No applications for fee assessment will be accepted if we will not have enough time to process your request and make an informed decision to confirm your fee status. If you commence your studies as an overseas fee payer, without a fee assessment, you will remain an overseas fee payer for the duration of your course.

Please note you may be asked to provide evidence of your financial documents before your CAS is released to you. Your financial documents must meet the requirements for a student visa application. You can find more information here:

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/843003/T4_Migrant_Guidance_October_2019.pdf

If you accept this offer, you will receive an email with a declaration form which you must return to the University for consideration before your CAS will be issued to you.

You can see the 'Disclosure of Criminal Convictions Policy and Procedure' here

How to Pay (you will need to quote your Student ID number and full names when making payment):

- Directly over the phone with an acceptable credit/debit card, by calling us directly at the international
 office on +44 (0)24 7765 2152
- Online (for the Coventry Campus): <u>here</u>

*** In some instances, we may need to track your payment in order to process your application further, so please include a scanned copy of your MT103 form when you send us your evidence of payment by email.

Tuition Awards and Scholarships

If you have been awarded a tuition award or scholarship, you will only be able to apply them onto your final tuition payment (not towards your second instalment). If paying your full fees upfront, at once before enrolment, we recommend that you deduct the value of the tuition award or scholarship before making your full payment. Refunds could take numerous weeks to process.

Academic Progression

If you have ever studied in the UK prior to joining the University, you must provide details of any study undertaken, including results and copies of visas held. You should also inform us of any courses you have failed or failed to complete for any reason. Failure to disclose this may result in visa refusal or withdrawal of our sponsorship of your study in the UK.

Sponsored Students

If you are being sponsored by a UKVI approved organisation (such as your Government or your employer), please ensure you provide us with a formal and acceptable letter of Sponsorship confirming the terms of the sponsorship, in accordance to the tuition and maintenance fees stated above.

Please note that the University does not accept MOHE sponsored student onto Undergraduate courses that are less than 3 years in length.

Completing the under-18 Parental Consent and Guardianship Form (if required)

If you are under the age of 18 at the time you accept this offer, you need your parent or guardian's consent and you must fill in the form providing us with contact details of a UK-based parent/guardian, who will be accessible to the University should the need arise.

We will not issue your CAS letter if this form is not completed fully and returned to us.

Alternative Offers

Please note that admissions onto our courses are subject to you fulfilling our minimum entry requirements. If we assess your application and qualification(s) (with you providing a portfolio, undergoing a faculty interview where required) for a particular course, we may have offered you an alternative course that is more suitable to you

based on your qualifications and skill set. Please note, alternative courses offered may take place at one of our other campuses. Please read the offer details above very carefully.

MDes or MEng Programmes are over four years with the possibility of doing an Industry Enhancement year. This is reflected within the exit titles associated with the four-year courses, either Sandwich BA/BEng (Hons) qualification or an integrated Masters course with an MDes/MEng qualification. The Integrated Masters route is designed for high achieving students to continue their studies and to develop advanced technical skills; as such, achievement attained during level 2 is used to determine suitability for progression. Additionally, a three year BA (Hons) degree is available for those wishing to omit the Industry Enhancement year. We would only issue an offer and CAS for a standard 3 year or 4 year BA/BSc Degree and not for an integrated masters.

If you opt to extend the length of your course after your visa has been granted and this extension does not involve an Industrial placement, you will be required to return to your home country in order to extend your student visa. You will be responsible for covering all additional costs associated with this including visa applications and return travel.

Applying for an ATAS Certificate (if required)

If any of your subjects are listed before, you <u>must</u> apply and obtain an ATAS certificate (issued by the Academic Technology Approval Scheme), before you apply for or extend your Visa, Entry Clearance, or Extension of Stay. If your course is listed below, it MAY STILL require ATAS, so please ensure you check the Home Office website for updates. Please visit https://www.gov.uk/guidance/academic-technology-approval-scheme to apply online for your ATAS certificate if required and obtain more information on the scheme. Alternative Offers

Please note that a dmissions onto our courses are subject to you fulfilling our minimum entry requirements. If we assess your application and qualification(s) (with you providing a portfolio, undergoing a faculty interview where required) for a particular course, we may have offered you an alternative course that is more suitable to you based on your qualifications and skill set. Please note, alternative courses offered may take place at one of our other campuses. Please read the offer details above very carefully.

MDes or MEng Programmes are over four years with the possibility of doing an Industry Enhancement year. This is reflected within the exit titles associated with the four-year courses, either Sandwich BA/BEng (Hons) qualification or an integrated Masters course with an MDes/MEng qualification. The Integrated Masters route is designed for high achieving students to continue their studies and to develop advanced technical skills; as such, achievement attained during level 2 is used to determine suitability for progression. Additionally, a three year BA (Hons) degree is a vailable for those wishing to omit the Industry Enhancement year. We would only issue an offer and CAS for a standard 3 year or 4 year BA/BSc Degree and not for an integrated masters.

If you opt to extend the length of your course after your visa has been granted and this extension does not involve an Industrial placement, you will be required to return to your home country in order to extend your Tier 4 visa. You will be responsible for covering all additional costs associated with this including visa a pplications and return travel.

Applying for an ATAS Certificate (if required)

If any of your subjects are listed before, you <u>must</u> apply and obtain an ATAS certificate (issued by the Academic Technology Approval Scheme), before you apply for or extend your Visa, Entry Clearance, or Extension of Stay. If your course is listed below, it MAY STILL require ATAS, so please ensure you check the Home Office website for updates. Please visit https://www.gov.uk/guidance/academic-technology-approval-scheme to apply online for your ATAS certificate if required and obtain more information on the scheme. The following courses require an ATAS certificate:

The Swedish higher education system

According to legislation <u>after</u> 1 January 2007. The following description is approved by the Swedish Council for Higher Education.

The Swedish higher education system is based on the Swedish Higher Education Act (SFS 1992:1434) and the 1 January 2007 amendments to the Higher Education Ordinance (1993:100). The following description is a short summary based on the legislation regulating the Swedish higher education system.

Qualifications from all higher education institutions (universities, university colleges and independent higher education providers) that are recognized by the Government are of equal official value. The same legislation governs all state higher education institutions. All Swedish degrees are issued in accordance with the same degree ordinances.

Quality assurance

The Swedish Higher Education Authority has been responsible for the quality assurance system for all higher education since 1 January 2013. For more information, please visit www.uka.se. Evaluation reports are available to the public.

National Qualification Frameworks

The Swedish Higher Education Act and the Higher Education Ordinance have been amended in accordance with the agreements reached as part of the Bologna Process, including the Qualifications Frameworks in the European Higher Education Area (QF-EHEA). Legislation for a three-cycle structure of higher education started to apply in July 2007, and is now the only one in use in all Swedish higher education. Transitional provisions apply to courses and programmes that started prior to this. For more information, please visit www.uhr.se/en or enic-naric.net.

In 2015, the Swedish Government decided on a national qualifications framework (SeQF), based on the European Qualifications Framework for Lifelong Learning (EQF). The SeQF has eight levels that are in accordance with the EQF

levels. Higher education qualifications are at levels six to eight. For more information, please visit www.seqf.se.

Credit system

Sweden has a system of credits (högskolepoäng); a normal 40-week academic year corresponds to 60 credits. The system is compatible with ECTS credits.

Grading system

There is no national grading system in Sweden. Higher education institutions may determine which grading system is to be used. No overall grade is awarded for a degree and students are not ranked. For example, Grade Point Average (GPA) and other ranking systems are not used in Sweden.

Access and admission

There are general and specific entry requirements for access to higher education within all cycles. The specific entry requirements vary according to the field of higher education and/or should be essential for students to be able to benefit from the course or study programme. The number of places is limited on all study programmes and courses.

The general entry requirements for first-cycle studies are the same for all higher education. General entry requirements can be attained by completing an upper-secondary school programme, via adult education at upper-secondary school level or the applicants achieving a comparable level of learning outcomes through other education, practical experience or other circumstances.

The general entry requirements for second-cycle studies are a first-cycle qualification of at least 180 credits, or a corresponding foreign qualification. An applicant may also be accepted on the basis of a comparable level of learning outcomes obtained through other education, practical experience or other circumstances. \rightarrow

The general entry requirements for third-cycle studies are a second-cycle qualification, or completed courses worth at least 240 credits (of which 60 credits are at second-cycle level) or the equivalent level of knowledge acquired in Sweden or abroad. Furthermore, for entry to third-cycle studies, the applicant must be deemed able to benefit from the education.

Qualifications

All courses, study programmes and qualifications are on one of three levels: first-, second- or third-cycle. In the Higher Education Ordinance, the Government has determined which qualifications may be awarded, as well as their scope, requirements and intended learning outcomes. There are three categories of qualifications: general; the fine, applied and performing arts; and professional qualifications. For some more information, please see below.

General qualifications

First-cycle (SeQF/EQF 6)

Högskoleexamen (Higher Education Diploma) requires 120 credits and an independent project (degree project).

Kandidatexamen (Degree of Bachelor) requires 180 credits. At least 90 credits must be completed in the main field of study, including an independent project (degree project) worth 15 credits.

Second-cycle (SeQF/EQF 7)

Magisterexamen (Degree of Master (60 credits)) requires 60 credits. At least 30 credits must be completed in the main field of study, including an independent project (degree project) worth 15 credits. In addition, the student must normally hold a kandidatexamen, or a professional degree of at least 180 credits, or an equivalent foreign degree.

Masterexamen (Degree of Master (120 credits)) requires 120 credits. At least 60 credits must be completed in the main field of study, including an independent project (degree project) worth at least 30 credits. In addition, the student must normally hold a kandidatexamen, or a professional degree of at least 180 credits or an equivalent foreign degree.

Third-cycle (SeQF/EQF 8)

Licentiatexamen (Degree of Licentiate) requires at least 120 credits, including a research thesis worth at least 60 credits. A higher education institution may decide that a licentiatexamen can be awarded as a separate qualification or as a step on the way to doktorsexamen (see below).

Doktorsexamen (Degree of Doctor) requires 240 credits, including a research thesis (doctoral thesis) worth at least 120 credits. The thesis must be presented at a public defence.

Qualifications in the fine, applied and performing arts

Qualifications in the fine, applied and performing arts are awarded at all three cycles and corresponding SeQF levels. At first-cycle level: konstnärlig högskoleexamen (Higher Education Diploma) and konstnärlig kandidatexamen (Degree of Bachelor of Fine Arts). At second-cycle level: konstnärlig magisterexamen (Degree of Master of Fine Arts (60 credits)) and konstnärlig masterexamen (Degree of Master of Fine Arts (120 credits)). Two third-cycle qualifications are awarded: konstnärlig licentiatexamen (Degree of Licentiate) and konstnärlig doktorsexamen (Degree of Doctor).

Professional qualifications

Professional qualifications are offered at either first- or second-cycle level and corresponding SeQF levels. These qualifications may stretch over two cycles and are awarded in areas that include engineering, health care, agriculture, law, and education. Professional qualifications are regulated by national legislation and are considered regulated education subject to the Professional Qualifications Directive 2005/36/EC.

Titles of qualifications

Translations into English of all titles of qualifications are regulated at the national level. Higher education institutions may decide to add a prefix to a qualification title e.g. filosofie kandidatexamen or medicine doktorsexamen or/and add a major field of studies e.g. civilingenjörsexamen i maskinteknik.
