#### ALUMINI TALK ON ‘Plan your international studies better’

An alumni talk for the undergraduate students of Mechanical Engineering department was held on **28<sup>th</sup> July 2021**, on Google Meet 10:00 am to 12.15 pm. We had our proud alumnus as the speaker, Mr. Ajay S (2016-2020 batch). He is a multitalented student and has got admission for doing higher studies on the area of ‘Innovative sustainable energy engineering’ in Aalto University, Finland. This webinar is aimed at guiding our undergraduate students for doing higher studies. The topic of the talk was “**Plan your international studies better**” which was intended to motivate the students to pursue higher studies after their graduation.

There were 53 participants in the alumni talk. The session was started in the formal way with Mr Nadeem and Ms Shahishtha, students of eight semester Mechanical Engineering

welcoming the speaker and participants. Dr. Rag, HOD, ME, Mr K. C Mathew and Mr K K Gopalakrishnan shared their memories. Mr. Ajay spoke about his experience at SSET as an undergraduate student and guided the audience related to what they can do currently that can help them to get scholarships places of higher learning. Mr Ajay also pointed out the various challenges in the preparation of portfolio and curriculum vitae. He pointed out the speciality of social service which he had experienced in the meantime of academic life, and how it helped him in his life. The talk was followed by an interactive session where students took active part. The snapshots of the event is given below.

#### ALUMNI TALK ON 'Role of Mechanical Engineer in Renewable energy sector' #43

An alumni talk for the undergraduate students of Mechanical Engineering department was held on **18th August 2021**, on Google Meet 10:00 am to 12.00 noon. We had our proud alumnus as the speaker, Mr. Rohith R (2009-2013 batch). He is a multit talented student and is working as Project Engineer in NGC Transmissions China. This webinar is aimed at guiding our undergraduate students for motivating the students to pursue career in Renewable energy sector.

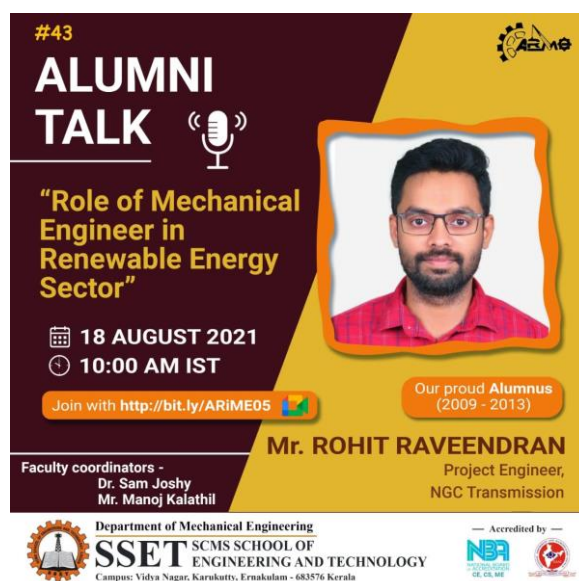

Fig. 1: Flier prepared for the Alumni talk

There were 90 participants in the alumni talk. The session was started in the formal way with Mr Amal James and Ms Esther, students of sixth semester Mechanical Engineering welcoming the speaker and participants. Dr. Rag, HOD, ME, Mr K. C Mathew and Mr K K Gopalakrishnan shared their memories. Mr. Rohith spoke about his experience at SSET as an undergraduate student and guided the audience on pursuing career in renewable energy sector. Mr Rohith pointed out the speciality of social service which he had experienced in the

meantime of academic life, and how it helped him in his life. The talk was followed by an interactive session where students took active part. The snapshots of the event is given below.

The first screenshot shows the main presentation slide titled "Role of Mechanical Engineer in Renewable Energy Sector". The slide features an illustration of wind turbines and solar panels. The Google Meet interface shows the presenter, Rohit Raveendran, and a grid of participants including Gopalakrishnan k.k., kcmathew cherian, Jose Sheril D, Gopalakrishnan K., Ravendran Mothan..., Ajith Kumar R, and 81 others. The system clock indicates 10:18 AM on 18-08-2021.

The second screenshot shows a slide titled "HOW TO PURSUE A CAREER IN RENEWABLE ENERGY SECTOR & CHALLENGES". The slide lists the following points:

- MS/M.TECH/MBA in specific Renewable Energy Fields like Sustainable Energy Technologies, Wind Turbine Design, Structural Engineering etc.,
- Study Design Courses like CATIA, PRO E, AUTOCAD etc.,
- Developing Specific Skill Sets including Communicational Skills.

**Challenges:**

- Recently developed technologies
- High development cost for the companies
- Very sophisticated technology

The slide also includes an image of a person wearing a hard hat and safety vest. The Google Meet interface shows the same participants, with Amal James added to the grid. The system clock indicates 10:26 AM on 18-08-2021.

### **ALUMNI TALK 25/09/2021– REPORT**

As part of Alumni Talk series, Department of Electronics and Communication, SSET organised an expert talk on 'Hacks on preparing resume and facing interviews' for faculties and students. The resource person Mr Arjun M, is a Recruiter at Talent Acquisition, IOVIA India. He is an alumnus of SSET (2007- 2011 ME). The session was conducted on 25/09/2021. Ms Sreeja K A, Asst.Professor, ECE Department, welcomed the guest and the participants.

The Talk focussed on preparing an impressive resume to make the applicants for a specific job, standout from the others. In the session, the speaker emphasised the importance of positioning the details regarding academic qualifications and previous work experience on the resume which will vary for a fresher and an experience candidate. He advocated the relevance of doing certification courses on JAVA programming, PYTHON programming and IoT, so that the recruiters can identify easily whether the candidate can suit a specific role in their company. As a responsible alumnus, he gave an assurance for the students of the current final year EC batch, that adequate support will be provided to find out a respectful job in the company which they prefer to associate with, and to forward their resume to him during their final months of graduation. The students found the session very useful and throughout the duration of the program, they were interacting with the resource person and gathered details which can help them to build a prospective carrier in future.

The session was attended by sixth semester B. Tech ECE. Ms Anandhi. V, HOD- in- Charge, Electronics and Communication department proposed the vote of thanks.

## Report on Session by Ms. Anu S Kaimal on Opportunities for Studying Abroad

### Alumini Series Talk – 31<sup>st</sup> August 2021

The alumni talk was conducted by the department of Computer sciences and engineering of SCMS School of Engineering and Technology. It was scheduled on the 31<sup>st</sup> of August, 2021, from 07:00 to 09:00pm IST through the google meet platform. The talk was aimed and intended for the first-year students of computer sciences and technology from the same college

The addresser for the event was Anu Sasidhara Kaimal, who completed the event from SSET in CSE in 2018, and is now pursuing her Master's from Paderborn University, Germany. The discussion of the night was 'Higher Education from Abroad.'

The program kicked off at 07:00 pm IST with Sonal Ayyappan, associate professor of SSET, giving a brief introduction and a welcome speech to our orator, after which the event was carried over by the speaker herself.

One and a half-hour discussion of the subject was supervised by the Q&A session which continued for another hour. The talk contained possibilities of higher studies abroad, the factors to be considered, cost of study, preparation, required documents for formalities, possible mistakes and problems which could be faced, agencies that could help, and other such factors regarding the same. This was followed by a question-and-answer session, during which many students and teachers posed interesting questions and were cleared off by the spokesperson.

The meeting consisted of more than sixty inquisitive people, who made the session amusing. The talk came to an end at around 08:50 pm IST with Sonal Ayyappan bestowing a vote of thanks.

## **Report**

### **Webinar on “Demand side Management in Smart Grid”**

Department of Electrical and Electronics Engineering organised Alumni Talk Series -III on “Demand side Management in Smart Grid ” by Dr Nithin S , Research Fellow, University of Warwick , UK ,Alumni 2008 EEE batch on 07/10/2021. He discussed about the current trends and challenges in the field smart grid in power system, his journey towards this field and also shared his real-life experiences. He also talked about the different equipment, generation scheduling, demand curve and demand despatch, after which the students were given the opportunity to share their views and clear their doubts about smart grid management. The event enlightened the mind of the students to new paths. Webinar was opened to S7EEE students. Totally twenty participants attended the program. The feedback of the sessions received by the participants was excellent.

#### ALUMNI TALK ON 'Engineer to entrepreneur' #49

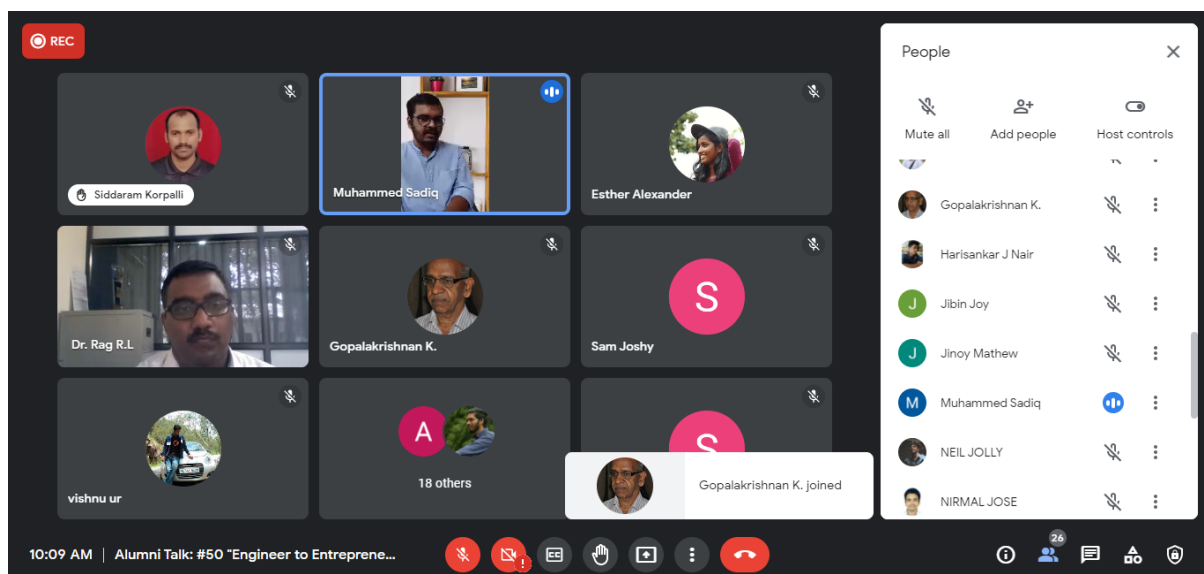

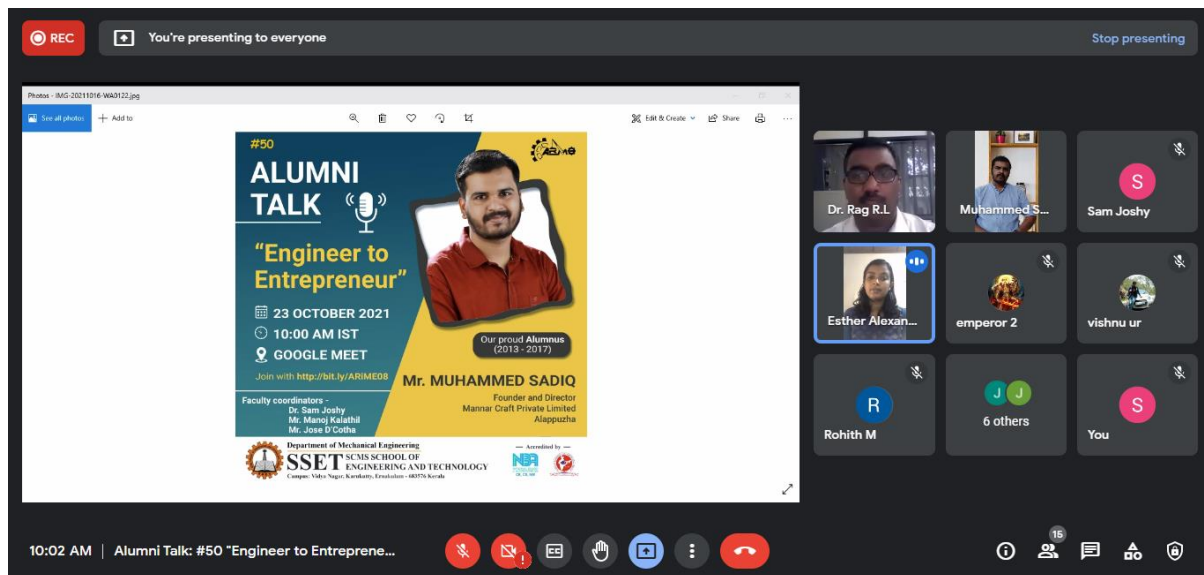

An alumni talk for the undergraduate students of Mechanical Engineering department was held on 23<sup>rd</sup> October 2021, on Google Meet 10:00 AM to 11.00 AM. We had our proud alumna as the speaker, Mr Mohammed Sadiq (2013-2017 batch). Mr Sadiq is the founder of Mannar Craft Pvt. Ltd, doing business in the marketing of bronze products. This webinar was aimed at guiding our undergraduate students for developing their entrepreneurship skills.

Fig. 1: Flier prepared for the Alumni talk

There were 42 participants in the alumni talk. The session was started in the formal way with Ms Esther, students of seventh semester Mechanical Engineering welcoming the speaker and participants. Dr. Rag, HOD, ME, and Mr K K Gopalakrishnan shared their memories. Mr. Sadiq spoke about his experience at SSET as an undergraduate student and guided the audience on how to apply technology in business. He pointed out on the experience he gained

during his college days as a member of ASME. The talk was followed by an interactive session where students took active part. The snapshots of the event is given below.

ACCREDITED BY

Mr. Adil Abdul Latheef P is a Computer Science and Engineering Graduate from SSET during the tenure 2013 – 2017. He was campus placed in Experion solutions when graduated. Now at present he is working as a Senior Software Engineer in Mindtree Solutions. He from his life and work experiences shared his thoughts of how to keep a positive attitude throughout, how to work in a team, how this attitude helps to balance work and personal life. He also shared his experiences with his teachers when he was in SSET, the activities he was involved and how it helped to achieve more. He also spoke about the failures he came across. He said he didn't let himself down when failures came but he made those as a weapon to achieve and study more. He concluded his session by asking some among the audience to share some similar experiences.

## **REPORT: ALUMNI TALK SERIES –IV**

**Date : 24/11/2021**

**Time : 2.00 PM- 3.00 PM**

Department of Electrical and Electronics Engineering organized Alumni Talk Series –IV on “All about batteries, Applications and Future of Electric Vehicles “by Dr Milan K Sadan, Senior Researcher, Research Institute of Green Energy and Technology, South Korea, Alumni 2011 EEE batch on 24. /11/2021. Alumni talk is arranged and coordinated by Mrs Deepa.S , Associate Professor , EEE Department .

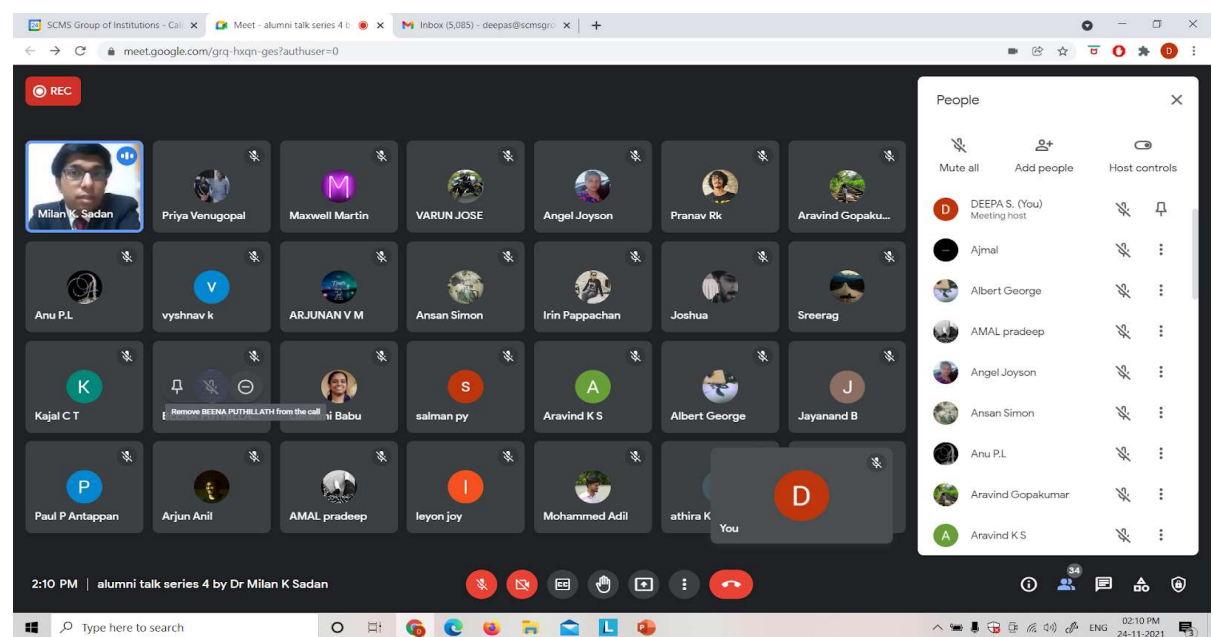

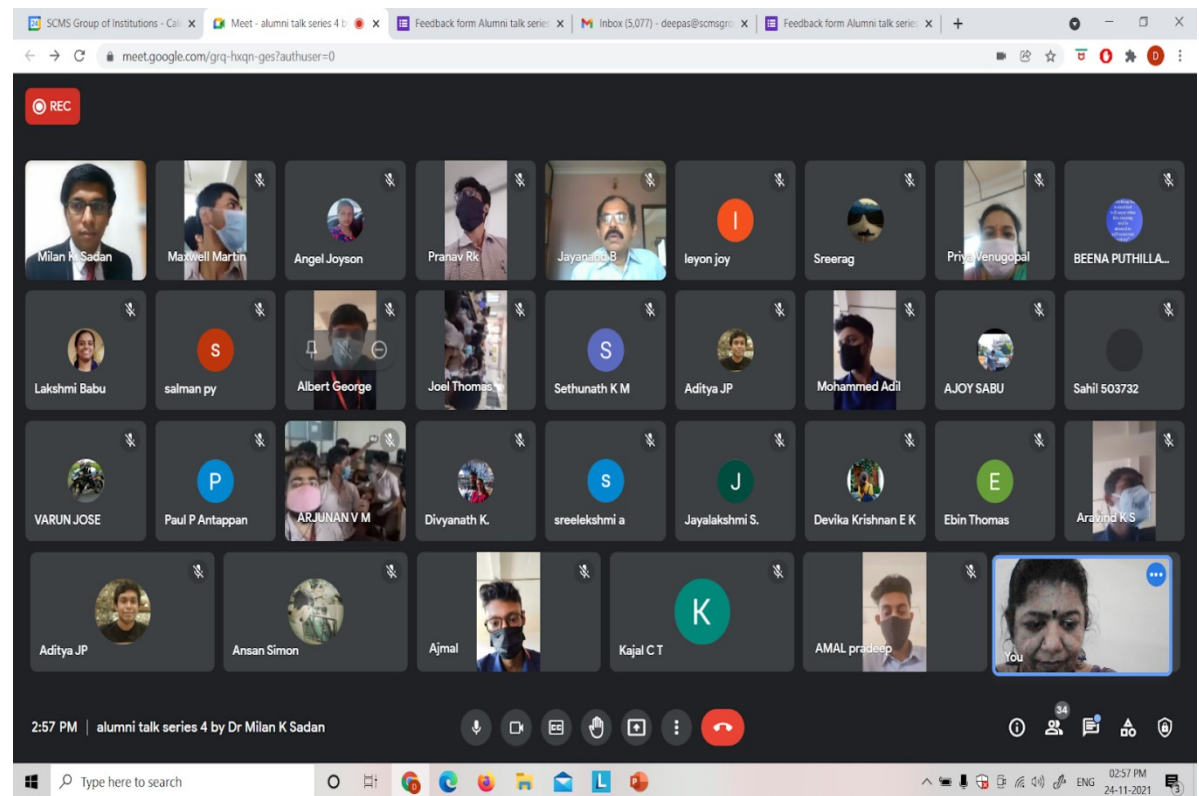

The speaker discussed about current trends and challenges in the field of electric vehicles, his journey towards this field and also shared his real life experiences. He also talked about electric vehicles in world and electric revolution in India., Electric car market, inside electric car after which students were given the opportunity to share their views and clear their doubts about Electric Vehicles

The event enlightened the mind of the student to new paths in the field of rechargeable batteries, Lithium ion batteries, components, working and its scope. He discussed about future electric vehicles in the world Webinar was opened to all students of Electrical Department. Totally Thirty-Eight participants attended the program. The feedback of the session received by the participants was excellent

## Drone Design

- **Autopilot:** Thrust vectoring, good response time.
- **Mechanical design:** You can choose the type of mechanical structure. Carbon fibre frame gives good mechanical properties plus water resistance.
- **Battery management:** Li-ion chemistry and Li-po chemistry are the most commonly used technology. With better usage, better flight time can be achieved.
- **Electronics:** High-efficiency electronics reduce the loss and improve flight time.
- **Gimbal and camera:** This plays a vital role in setting the use of the drone.
- **Weight:** Inverse proportion to flight time.
- **Radio communication:** The range of the component limits the range of the mission.
- **GCS:** Ground Control Station.

### Skill sets

- Manufacturing techniques and properties of composites.
- CAD/ CAM software skills, as far as designing is concerned.
- Knowledge of Aerodynamics, structural engineering.
- Knowledge of CFD and FEA tools.
- Electronics, battery management, power electronics.
- Drone piloting has a massive scope as it's not at all easy to fly one.
- Data ratio and radio communications is an essential part of a UAS system.
- Good programming skills can help in developing your firmware.
- Software development skills for GCS.

Participants: Sidharth Rajeev, Teres Antu, Gopalakrishnan K., Rohith M, Esther Alexander, Razin Muhamme..., 24 others, You

#### ALUMNI TALK ON ' Campus to corporate' #57

An alumni talk for the undergraduate students of Mechanical Engineering department was held on 18th December 2021, on Google Meet 10.00 AM to 11.30 AM. We had our proud alumna as the speaker, Mr Mohammed Thaabith (2012-2016 batch). Mr Thaabith is working as Business Development manager in Hexa Tech Refrigeration LLC. This webinar was aimed at guiding our undergraduate students by sharing experiences in his career.

The flier is a vertical rectangular poster with a dark blue background. At the top left, it says '#57' in white. To its right, a light blue circle contains the text 'ALUMNI TALK' in dark blue. Further right, the text 'Department of Mechanical Engineering' is written in white, accompanied by the ARiME logo. The central text reads '"CAMPUS TO CORPORATE"' in large, bold, yellow letters. Below this, the date '18 DEC 2021' and time '10:00 AM IST' are listed with corresponding icons. A white box contains the text 'Join with https://bit.ly/ARiME10'. On the right side, there is a circular portrait of Mr. Muhammed Thaabith, a man with glasses and a beard, wearing a grey suit. Below the portrait, his name 'Mr. Muhammed Thaabith' is written in bold yellow, followed by his title 'Business Development Manager' and company 'Hexa Tech Refrigeration LLC, Dubai, UAE' in white. At the bottom left, the text 'Faculty Coordinators - Dr. Sam Joshy, Mr. Manoj Jose Kalathil' is displayed in yellow and white. The bottom of the flier features logos for SSET (SCMS School of Engineering and Technology) and accreditation by NBA (National Board of Accreditation) for CE, CS, and ME.

Fig. 1: Flier prepared for the Alumni talk

The talk was streamed live in the Main seminar Hall. There were 37 participants in the alumni talk. The session was started in the formal way with Ms Esther and Mr Rohith students

of seventh semester Mechanical Engineering welcoming the speaker and participants. Mr. Thabith shared his memories at SSET as an undergraduate student. He discussed about his milestones in career from an engineer to business development manager. The motivating talk was followed by an interactive session where students took active part. The meeting was concluded at 11.25 AM. The snapshots of the event are given below.

### A Report on Induction Programme for First Year Students for Academic year 2019-2020

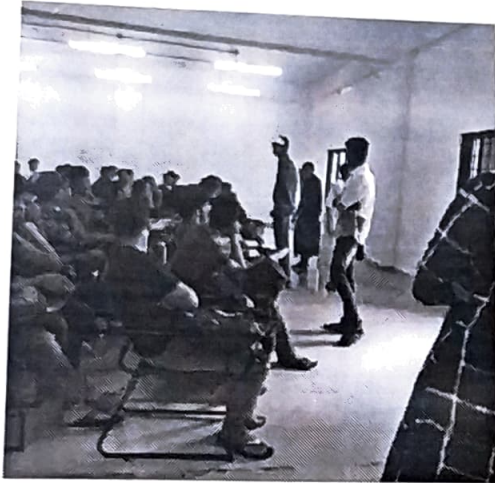

Department of Computer Science and Engineering, SCMS School of Engineering and Technology organized a one day Induction Programme for first year students on 1/8/19. The objective of the programme was to acclimate the students with the new environment and get them acquainted with the department and institution culture. A motivational session were handled by our Alumni.

#### Programme Schedule:

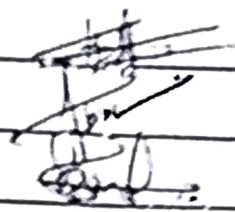

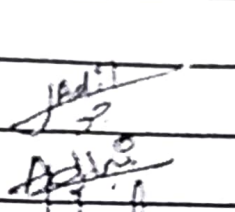

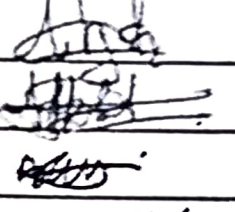

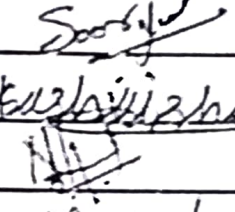

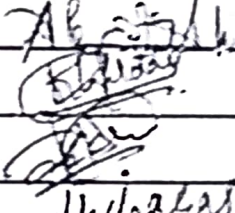

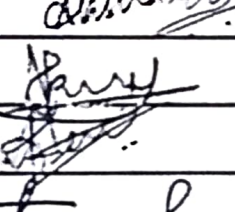

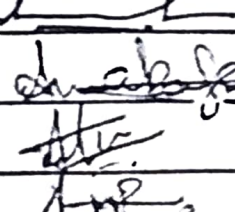

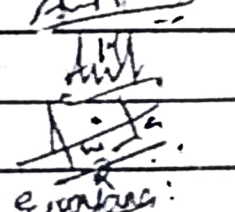

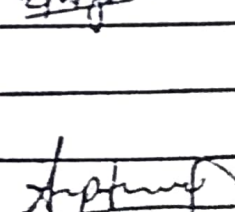

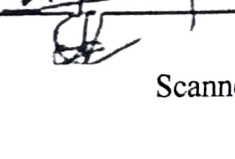

Time Slot	Programme
9.00 am-11.30 am	<b>How to become an Entrepreneur at Young Age?</b> Mr.Nihil Pradeep & Mr.Sreeram. S.Kammath(Batch 13 ) Founder &CEO, RONAK Technologies.
12.20 pm -2.00 pm	<b>Pathway to become a successful Computer Engineer.</b> Ms. Ayisha Jalal, Mr.Ajay Reghuwarrier, Ms.Malavika Prakash
2.00-4.00 pm	<b>Team Building activities</b> ,Final year M.Tech Students

A total of 112 students participated in this program .Faculty Volunteers worked extensively to ensure that the induction program was well organized.

Dear all,

As a gesture of goodwill, Alumni Association of SSET, Dubai has come up with ASSET, Radiance - A six pronged approach by ASSET to support "Advancing Future Professionals".

**Inspiring Future Professionals by ASSET UAE**

**Interactive Webinar Framework**

- Max 45min Duration
- Moderated Discussions
- 15min Topic Introduction
- 20min group discussion on career journey
- 10 min Q&A
- 3 people on panel from same domain at a time

**What Speakers shall commit ?**

- Coordinate with other volunteer from similar domain and agree on a simple career pathway introduction ppt.
- Prepare well to talk your career experience starting from a fresher perspective then
- Focus your talk on skills you were demanded to possess at different levels of career.
- Suggest and provide links to content for students
  - Link to videos, knowledge
  - Materials like presentations you possess
  - Introduce Courses which would be of value

**Few Career Pathways topics that could be addressed**

- Quantity Surveying
- Planning
- MEP Side of construction
- BIM & Digital Project Delivery
- Oil & Gas Projects in ME

The sessions in this series will be online where students from all disciplines will get to interact with the alumni. The launching of ASSET Radiance'19 will be held from 11.30 am to 12.30 pm on 6th September 2019 at Seminar Hall I, First Floor, Administrative Block. More details of the structure of this interaction and topics will be addressed in this event.

All Heads of Departments shall provide a list of 5 enthusiastic students from your branch from among Final (more preference) and pre final year. Please ask the faculty advisors to share the list with me by tomorrow morning.

## ASSET Radiance'19

An Initiative by ASSET to support "Advancing Future Professionals"

ASSET-UAE (Alumni of SSET) is pleased to announce a new initiative to support the future professionals and assist them to get ready for the industry after graduation. Emphasis of the initiative will be skills (technical & personal) development guidance via sharing of personal career journey from alumni members. Alumni members will be sharing their personal work experience to help future professionals relate the knowledge they gain in university to the market.

As ASSET, we wish to provide exposure for students into the bigger global market and trigger thoughts of career specializations to choose. Alumni experts will be delivering multiple sessions on certain career paths and on new emerging trends in engineering sector. More details like structure of this interaction and topics will be addressed in upcoming event on Friday, 06<sup>th</sup> September 2019 at 11.30 am IST.

### Agenda for the day

11.30 Introduction to ASSET and Key Members

11.45 What is Radiance'19?

*Session Structure, Value Proposition, Topics for future Sessions*

12.00 New Digital Ways of Engineering & Emerging Trends

*High Level Technical Presentation on Global Trends in Engineering*

12.30 Wrap Up

Dear all,

Thanks to all the Heads of Departments and faculty who coordinated in bringing in the students for the ASSET RADIANCE webinar session. To organize the session any other day it would have been easier and if the launch could not be realized today it would have again been inordinately delayed.

We had representation from all the branches as envisaged. As against the 30 minimum number we wanted, we had thirty three students in all, who sat patiently for 75 min through the intermittent technical glitches faced and in spite of missing out the Onam gala and exuberant festivities outside. Big thanks to all of them too.

Thanks a bunch to the Mr. Arun Mathews Kunnel who took the situation in hand and for timely switching over to resorting to phone connection for the entire session for ensuring better audio reception and all those back and forth phone calls made by him and Mr. Arun Thomas and follow ups online made during the past three weeks. We know much more brainstorming would have taken place backstage before this program was announced.

Thanks to Mr. Arun Thomas, Mr. Antony Jose, Mr. Febin John, Mr. Deepu R Pillai, Mr. Sumeesh K V and Mr. Arun Mathews for taking time out on a holiday to interact with the students and more such sessions planned in the days to come. Thanks to the all the current office bearers of ASSET as well as the office bearers till date who over the years have been planning for realization of such sessions and to all those alumni out there, rearing to share your experiences and expertise to the budding engineers of SSET. All participants who were there today are looking forward to what you have to offer to them and have taken the essence of **ASSET Radiance** and will sure share the information to their fellow mates.

Thanks &amp; Regards,

---

INNOVATION (ARiME)**

**ALUMNI TALK ON SAFETY VALVES & SOME INSIGHTS INTO INTERNATIONAL  
CODES AND STANDARDS**

Safety valves are one of the most important equipment within the industrial plants, as they are the last line of defense against a possible overpressure situation which could result in pressure vessel rupture or explosion. Safety is everybody's responsibility. With this objective, the Department of Mechanical Engineering organized a live webinar cum alumni talk on "Safety Valves and some insights into International codes and standards" on 22<sup>nd</sup> May 2020 for the emerging Mechanical Engineers who are new to the pressure relief devices environment. With some insights into the ASME Code and API standards used for the sizing, selection, installation

and preventative maintenance of safety valves in industries, this webinar gave a good overview on how safety valves are designed for overpressure protection.

The webinar was sessioned by Mr. Rahul Raj, Sales and Market Developer, LESER GmbH & Co. KG, UAE, who is also an alumnus of SSET (Mechanical Engineering 2004-08 batch). The program received an overwhelming response from 65 participants, with 58 students and 7 faculties from SSET. The students were conferred with testing equipment and procedures practiced in LESER, the largest manufacturer of safety valves in Europe and one of the leading companies in its industry worldwide. The webinar provided education credits to students by developing interest and engaging them in life-long learning in the context of safety valve design and testing.

The poster is for a live webinar titled "SAFETY VALVES & SOME INSIGHTS INTO INTERNATIONAL CODES AND STANDARDS". It features a portrait of Mr. Rahul Raj, Sales & Market Developer at LESER GmbH & Co. KG, UAE. The event is scheduled for 22 May 2020, from 11 AM to 1 PM. The poster also lists coordinators and contact information for SSET students.

## **TALK ON DIGITAL MARKETING**

Computer Science department of SCMS School of Engineering and Technology had organized a talk on **“Digital Marketing”** taken by former student of SSET, **Aravind Anilkumar** who is currently working as a developer at Trans Union South Africa. The gathering was firstly addressed by Sonal Ayyappan, Associate professor . He spoke about the various opportunities digital marketing offers the newly pass out student. He gave various day to day examples where digital marketing is utilized and how it can be used by students who want to start start up to promote their organization. The session was very lively and it had Q&A sessions at the end.

**Venue: Seminar Hall**

**Time: 2.00pm to 3.30pm**

**Date : March 8<sup>th</sup> 2018, Thursday**
