7.1.4: Describe the Institutional efforts/initiatives in providing an inclusive environment i.e., tolerance and harmony towards cultural, regional, linguistic, communal socioeconomic and Sensitization of students and employees to the constitutional obligations: values, rights, duties and responsibilities of citizens (Within 500 words)

Response:

The institution believes in the equality of all cultures and traditions and is striving to make an inclusive environment a reality. The initiatives are designed for imparting better education, economic upliftment of the needy and fostering communal harmony.

As part of this initiative, 75 employees attended an AICTE-sponsored FDP on Inculcating Universal Human Values in Technical Education from August 2020 to October 2021 as part of imbibing these into our students. Human value education is a planned educational programme that aims to provide quality of life and sustained development in society by providing direction and firmness to life, bringing behavioural changes toward positivism, and promoting peace and harmony in individuals and society.

To impart a sense of tolerance and harmony towards linguistic and communal socioeconomic sensitization of students towards constitutional obligations for instilling values, rights, duties and responsibilities, we have done an online 30 hours' value added course on Human Rights and Duties Education, Indian Constitution and Civil Liberty, Personality Development, Leadership and Communication Skills. More than 30 students had enrolled for each session thereby enriching their civic sense and societal ethics as humans.

Yi YUVA has always stood firm in its commitment to fostering entrepreneurial skills in students by stimulating a spirit of leadership, a startup culture, and socially and economically viable innovations, thereby educating them to be responsible citizens. IEDC cells contribute to the overall development of students' capabilities by exposing them to a diverse range of activities expose them most recent and cutting-edge technologies accessible.

SSET's Automobile Engineering students along with Young Indians which is a part of CII, organises HNOP CAMPAIGN – Horn Not Ok Please, a community driven campaign against unnecessary Vehicle Honking. Save a Tree, a campaign to nurture and protect trees, is organized regularly by the NSS unit. At Thiruvairannikulam Temple, the NSS unit launched the Green Protocol campaign, which aimed to clean the premises and make it a plastic-free zone. Students from various cultures and beliefs, as well as residents, initiated the activity with great enthusiasm. The Institute provides ample opportunities for faculty and staff also to showcase their talents. During Onam, Christmas Celebrations staff and students put forward their programs in singing and dancing.

Every year on November 1st, students and staff members dress up in traditional attire and celebrate Kerala Piravi Day to promote religious harmony and secularism. On Environment day our students are encouraged to plant a sapling in campus and they actively participate
