Hello,

Hope you are doing well and keeping safe.

Over the past few weeks, we have been witnessing unprecedented damage and untold misery to mankind all across the world. Thousands of people have lost their lives all over the world. While there is a lot more uncertainty to this dangerous pandemic humankind has ever witnessed, one thing we are all certain is that life is never going to be the same again in the foreseeable future.

Unfortunately, the virus has impacted the lives of people around the world, it is also impacting businesses on a massive scale. QuEST too has not been immune from the impact. Some lines of our business have been impacted and we have taken tough decisions such as suspending major hiring, managing costs, and optimizing the workforce. We also have re-prioritized our plans for the year, and currently we are focusing on doing what it takes to successfully maneuver through this crisis.

After careful assessment of the current business challenges, we regret to inform you that we are unable to honor the Offer of Employment made to you previously. The position for which they were interviewed and selected, has been put on hold until further notice.. However, we are in the process of putting together training content that will make them industry ready and help secure their future employment. Details of the same will be shared with them a little later.

We want you to know that if the business situation changes in the future, first employment preference will be given to them, should they choose to work with us.

We request your understanding at this time, and hope to welcome the candidates to the QuEST family in the future.

Please email us if you have any questions. Stay Safe!

The students that we will be going ahead with:-

Annexure 2: HEALTH AND SAFETY POLICY

1. Introduction

Randstad recognizes people as its most important asset and is committed to ensuring safe and healthy work environment for all its employees and people visiting its premises. Randstad's Corporate Policy necessitates a specific Health & Safety Policy for its outsourced employees. Given that our EWs are redeployed to various client sites, where each client's Health & Safety Policy would be different, it is our commitment to ensure that our EWs have safe working conditions, where risks if any, are well managed and our clients treat all our EWs as they would treat their direct employees in matters of health & safety.

This document is to be read and thoroughly understood by all Randstad EWs at the time of joining an assignment; it requires them to be aware of the policy and our recommendations for safe working practices.

We assure that we will not depute an EW to a client site, which causes an Occupational Hazard or risk to Health. We will only work with clients who are aligned to our Health & Safety Policy for EWs. Additionally, we advise our EWs and employees to bring to our notice, situations that an EW might encounter and could be a potential health & safety issue.

We also ask our EWs not to endanger themselves or their colleagues at work by violating any safety rules, and to comply with work place instructions besides ensuring that they wear Personal Protective Equipment where advised. Our EWs are asked not to interfere with or misuse anything provided for their safety, health and welfare. This is a condition of employment with Randstad. Management reviews will be held each year to review implementation of this policy and draw upon further improvements for the following year. These improvements will include the policy itself and the associated business processes to attain objective of this policy.

2. Health & Safety Policy

Health & Safety in the work place is every one's responsibility. Randstad regards promotion of Health & Safety measures as a mutual objective for the management and employees, including deputed employees. Randstad has factored in statutory requirements while arriving at this Health & Safety Policy.

Hello,

Hope you are doing well and keeping safe.

Over the past few weeks, we have been witnessing unprecedented damage and untold misery to mankind all across the world. Thousands of people have lost their lives all over the world. While there is a lot more uncertainty to this dangerous pandemic humankind has ever witnessed, one thing we are all certain is that life is never going to be the same again in the foreseeable future.

Unfortunately, the virus has impacted the lives of people around the world, it is also impacting businesses on a massive scale. QuEST too has not been immune from the impact. Some lines of our business have been impacted and we have taken tough decisions such as suspending major hiring, managing costs, and optimizing the workforce. We also have re-prioritized our plans for the year, and currently we are focusing on doing what it takes to successfully maneuver through this crisis.

After careful assessment of the current business challenges, we regret to inform you that we are unable to honor the Offer of Employment made to you previously. The position for which they were interviewed and selected, has been put on hold until further notice.. However, we are in the process of putting together training content that will make them industry ready and help secure their future employment. Details of the same will be shared with them a little later.

We want you to know that if the business situation changes in the future, first employment preference will be given to them, should they choose to work with us.

We request your understanding at this time, and hope to welcome the candidates to the QuEST family in the future.

Please email us if you have any questions. Stay Safe!

Annexure 2: HEALTH AND SAFETY POLICY

1. Introduction

Randstad recognizes people as its most important asset and is committed to ensuring safe and healthy work environment for all its employees and people visiting its premises. Randstad's Corporate Policy necessitates a specific Health & Safety Policy for its outsourced employees. Given that our EWs are redeployed to various client sites, where each client's Health & Safety Policy would be different, it is our commitment to ensure that our EWs have safe working conditions, where risks if any, are well managed and our clients treat all our EWs as they would treat their direct employees in matters of health & safety.

This document is to be read and thoroughly understood by all Randstad EWs at the time of joining an assignment; it requires them to be aware of the policy and our recommendations for safe working practices.

We assure that we will not depute an EW to a client site, which causes an Occupational Hazard or risk to Health. We will only work with clients who are aligned to our Health & Safety Policy for EWs. Additionally, we advise our EWs and employees to bring to our notice, situations that an EW might encounter and could be a potential health & safety issue.

We also ask our EWs not to endanger themselves or their colleagues at work by violating any safety rules, and to comply with work place instructions besides ensuring that they wear Personal Protective Equipment where advised. Our EWs are asked not to interfere with or misuse anything provided for their safety, health and welfare. This is a condition of employment with Randstad. Management reviews will be held each year to review implementation of this policy and draw upon further improvements for the following year. These improvements will include the policy itself and the associated business processes to attain objective of this policy.

2. Health & Safety Policy

Health & Safety in the work place is every one's responsibility. Randstad regards promotion of Health & Safety measures as a mutual objective for the management and employees, including deputed employees. Randstad has factored in statutory requirements while arriving at this Health & Safety Policy.

General Safety

1. Ensure that you are aware of your own responsibilities in respect of relevant health, safety and environmental matters.
2. Follow instructions the way it is meant to be. Use entries and exits, lifts in the manner it is meant to be.
3. Ensure you have your EW ID card on your person at all times with your photograph, Randstad contact details and Nos. displayed in a clear manner.
4. If you have a visitor, ensure your visitor signs in and receives a security pass. Do not take your visitor into the client premises without permission.
5. You will not enter your work premises while under the influence of alcohol, drugs or any substance which may endanger your health or safety and/or that of any other person.
6. Beware of fact that many things which may be obvious get overlooked while working. Thus, appropriate care and concentration is required at work to ensure general safety.

Fire Safety

1. Ensure familiarity with the fire safety procedures in work place. Most organizations have fire safety training as a statutory requirement. Ensure you attend the same, after seeking necessary permission from your reporting manager.
2. Understand different kinds of fire fighting equipments installed at your work place.
3. Please become familiar to the sound of the fire alarm and know the emergency/fire exits. These are not normal entry/exits. These exits are signed with the statutory fire exit signs.
4. Attend fire drill if any at your work place and undergo evacuation training.
5. Avoid taking personal risks; do not try to tackle fire on your own.

Accident & First Aid

Familiarize yourself with the First Aid arrangements at your work place. Do not leave vehicles or items relating to your work

Hello,

Hope you are doing well and keeping safe.

Over the past few weeks, we have been witnessing unprecedented damage and untold misery to mankind all across the world. Thousands of people have lost their lives all over the world. While there is a lot more uncertainty to this dangerous pandemic humankind has ever witnessed, one thing we are all certain is that life is never going to be the same again in the foreseeable future.

Unfortunately, the virus has impacted the lives of people around the world, it is also impacting businesses on a massive scale. QuEST too has not been immune from the impact. Some lines of our business have been impacted and we have taken tough decisions such as suspending major hiring, managing costs, and optimizing the workforce. We also have re-prioritized our plans for the year, and currently we are focusing on doing what it takes to successfully maneuver through this crisis.

After careful assessment of the current business challenges, we regret to inform you that we are unable to honor the Offer of Employment made to you previously. The position for which they were interviewed and selected, has been put on hold until further notice.. However, we are in the process of putting together training content that will make them industry ready and help secure their future employment. Details of the same will be shared with them a little later.

We want you to know that if the business situation changes in the future, first employment preference will be given to them, should they choose to work with us.

We request your understanding at this time, and hope to welcome the candidates to the QuEST family in the future.

Please email us if you have any questions. Stay Safe!

The students that we will be going ahead with:-

Annexure 2: HEALTH AND SAFETY POLICY

1. Introduction

Randstad recognizes people as its most important asset and is committed to ensuring safe and healthy work environment for all its employees and people visiting its premises. Randstad's Corporate Policy necessitates a specific Health & Safety Policy for its outsourced employees. Given that our EWs are redeployed to various client sites, where each client's Health & Safety Policy would be different, it is our commitment to ensure that our EWs have safe working conditions, where risks if any, are well managed and our clients treat all our EWs as they would treat their direct employees in matters of health & safety.

This document is to be read and thoroughly understood by all Randstad EWs at the time of joining an assignment; it requires them to be aware of the policy and our recommendations for safe working practices.

We assure that we will not depute an EW to a client site, which causes an Occupational Hazard or risk to Health. We will only work with clients who are aligned to our Health & Safety Policy for EWs. Additionally, we advise our EWs and employees to bring to our notice, situations that an EW might encounter and could be a potential health & safety issue.

We also ask our EWs not to endanger themselves or their colleagues at work by violating any safety rules, and to comply with work place instructions besides ensuring that they wear Personal Protective Equipment where advised. Our EWs are asked not to interfere with or misuse anything provided for their safety, health and welfare. This is a condition of employment with Randstad. Management reviews will be held each year to review implementation of this policy and draw upon further improvements for the following year. These improvements will include the policy itself and the associated business processes to attain objective of this policy.

2. Health & Safety Policy

Annexure 2: HEALTH AND SAFETY POLICY

1. Introduction

Randstad recognizes people as its most important asset and is committed to ensuring safe and healthy work environment for all its employees and people visiting its premises. Randstad's Corporate Policy necessitates a specific Health & Safety Policy for its outsourced employees. Given that our EWs are redeployed to various client sites, where each client's Health & Safety Policy would be different, it is our commitment to ensure that our EWs have safe working conditions, where risks if any, are well managed and our clients treat all our EWs as they would treat their direct employees in matters of health & safety.

This document is to be read and thoroughly understood by all Randstad EWs at the time of joining an assignment; it requires them to be aware of the policy and our recommendations for safe working practices.

We assure that we will not depute an EW to a client site, which causes an Occupational Hazard or risk to Health. We will only work with clients who are aligned to our Health & Safety Policy for EWs. Annexure 2: HEALTH AND SAFETY POLICY

1. Introduction

Randstad recognizes people as its most important asset and is committed to ensuring safe and healthy work environment for all its employees and people visiting its premises. Randstad's Corporate Policy necessitates a specific Health & Safety Policy for its outsourced employees. Given that our EWs are redeployed to various client sites, where each client's Health & Safety Policy would be different, it is our commitment to ensure that our EWs have safe working conditions, where risks if any, are well managed and our clients treat all our EWs as they would treat their direct employees in matters of health & safety.

This document is to be read and thoroughly understood by all Randstad EWs at the time of joining an assignment; it requires them to be aware of the policy and our recommendations for safe working practices.

We assure that we will not depute an EW to a client site, which causes an Occupational Hazard or risk to Health. We will only work with clients who are aligned to our Health & Safety Policy for EWs. Additionally, we advise our EWs and employees to bring to our notice, situations that an EW might encounter and could be a potential health & safety issue.

We also ask our EWs not to endanger themselves or their colleagues at work by violating any safety rules, and to comply with work place instructions besides ensuring that they wear Personal Protective Equipment where advised. Our EWs are asked not to interfere with or misuse anything provided for their safety, health and welfare. This is a condition of employment with Randstad. Management reviews will be held each year to review implementation of this policy and draw upon further improvements for the following year. These improvements will include the policy itself and the associated business processes to attain objective of this policy.

2. Health & Safety Policy

Health & Safety in the work place is every one's responsibility. Randstad regards promotion of Health & Safety measures as a mutual objective for the management and employees, including deputed employees.
