The Indo-Colombian Entrepreneurship Meet 2019 was jointly organised by ACBSP (Accreditation Council for Business Schools and Programs) and SCMS Group at SCMS COCHIN School of Business on March 7. The meet was inaugurated by Mr. Jeffrey Alderman, President and CEO, ACBSP. In his keynote address, the President said that the essence of entrepreneurialism is “making a difference in the life of others.” Referring to the examples of Amazon, Facebook, Uber and the like, he said that entrepreneurs always think “how can I make a difference in the life of others.” He called upon the students to start thinking about the types of businesses they would like to start.

Earlier, Dr. C. N. Narayana, Director, SCMS COCHIN School of Business welcomed the gathering.

While presenting the theme of the conference, Dr. G. Sashi Kumar, Principal, SSTM said that the purpose of the meet was to discuss the initiatives felt sorry for that kitten which was shivering with fatigue. So I decided to let the kitten in. I got it some milk, and the kitten licked the plate clean. Then it purred and rubbed against my leg and for the first time, in months, I smiled.

Then I stopped to think, if helping a little kitten could make me smile, may be doing something for poor people could make me happier. So, the next day, I prepared some sweets and took them to a neighbour who was sick in bed. Every day I tried to do something nice for someone. It made me so happy to see them happy. Today, I don’t know of anybody who sleeps and eats better than I do. I’ve found happiness, by giving it to others.”

When the rich lady heard that, she cried. She had everything that money could buy, but she had lost the things which money cannot buy.

The beauty of life does not depend on how happy you are; it depends on how happy others can be because of you. Later that lady became a President of a philanthropic organization in the city. Now the lady is busy serving people and finding eternal happiness.

Dr. G.P.C. Nayar

Where to find happiness

There was a beautiful, rich, expensively dressed lady who turned very unhappy in her life. She felt her whole life was empty and worthless; it had no meaning, after her husband had passed away. She became all alone in the big palatial house. All those imported cars, expensive furniture, French cutlery, French perfume, Persian carpet were just useless objects to her. After a prolonged thinking, she decided to do something to bring about a change. In order to get expert guidance she went to consult a counselor to seek permanent and long-lasting happiness.

The counselor called over an old lady who was engaged in cleaning the office floors. He then told the rich lady, “I’m going to ask Leela here to tell you how she found happiness. All I want you to do is listen to her.”

So, the old cleaning lady put down her broom and sat on a chair beside the lady and started telling her story: “Well, my husband died of cancer and three months later my only son was killed in a car accident. I had nobody... I had nothing left. I couldn’t sleep, I couldn’t eat, I never smiled at anyone; I even thought of ending my own life.

Then one evening, a little kitten followed me home. Somehow I felt sorry for that kitten which was shivering with fatigue. So I decided to let the kitten in. I got it some milk, and the kitten licked the plate clean. Then it purred and rubbed against my leg and for the first time, in months, I smiled.

Then I stopped to think, if helping a little kitten could make me smile, may be doing something for poor people could make me happier. So, the next day, I prepared some sweets and took them to a neighbour who was sick in bed. Every day I tried to do something nice for someone. It made me so happy to see them happy. Today, I don’t know of anybody who sleeps and eats better than I do. I’ve found happiness, by giving it to others.”

When the rich lady heard that, she cried. She had everything that money could buy, but she had lost the things which money cannot buy.

The beauty of life does not depend on how happy you are; it depends on how happy others can be because of you. Later that lady became a President of a philanthropic organization in the city. Now the lady is busy serving people and finding eternal happiness.

Mr. Jeffrey Alderman, President and CEO, ACBSP inaugurating the Indo-Colombian Entrepreneurship Meet at SCMS. Others in the picture are L-R: Dr. C. N. Narayana, Director, SCMS COCHIN School of Business, Dr. Jose Alejandro Cheyne Garcia, Board Chair, ACBSP and Ms. Claudia Dulce Romero, Director of Social Projection, University of Rosario, Colombia.

Contd. on page 2
put forward by India and Colombia to foster a culture of innovation and entrepreneurship in the respective countries. Both the countries have several initiatives for startups. While in India we have the Startup India promoting entrepreneurship by mentoring, nurturing and facilitating startups throughout their life cycle, the scheme which the Government of Colombia has launched is SENA which invests in the social and technical development of the Colombian workers by offering and implementing a comprehensive professional training.

Dr. Jayasankar Prasad, Managing Director, Kerala State IT Infrastructure Limited spoke on the entrepreneurship ecosystem in India, startup initiative in India and Startup Kerala. He discussed some of the positive aspects of the ecosystem – a plethora of opportunities to explore. He said India has moved up one place to the 68th spot of the Global Entrepreneurship Index of 2018, which is topped by the US. The index indicates the overall entrepreneurship attitude and potential of the country. He listed out some of the qualities required to be developed to become a successful entrepreneur, such as thinking outside the box, ability for teamwork, perseverance, global thinking, use and appropriation of technologies and the like.

In the pre-lunch session, Dr. Jose Alejandro Cheyne Garcia, Board Chair, ACBSP and Rector, University of Rosario, Colombia made a lavishly colourful presentation linking visual art and entrepreneurship. Quoting profusely from great impressionist artists like Pablo Picasso, Leonardo da Vinci, Edgar Degas, Auguste Rodin, Claudet Monet, Auguste Renoir, Edouard Manet and the like along with visuals of their famous art pieces he kept the audience spellbound throughout the presentation. He said that entrepreneurs must be generous givers like Paul Durand, impressionist art collector, who purchased all the paintings from the impressionists at a price much higher than regular price. He became bankrupt because of this. Yet, later the American Art Association purchased all the collection from him which made him a millionaire. Dr. Garcia concluded the session with the statement that “entrepreneurship is for everyone; entrepreneurship is not only a right but an obligation.”

In the afternoon session, Ms. Claudia Dulce Romero, Director of Social Projection, University of Rosario, Colombia spoke on the art of developing entrepreneurial leaders. To be sensitive to the world you must think outside the box, she suggested. She dealt in detail the Three Day Startup (3DS), an international startup programme that develops entrepreneurial skill in three days as practiced in her university. Through a model of “learning by doing,” it helps students to identify a problem in the society and start an enterprise in three days. In three days full of energy the students learn how to turn ideas into reality.

The conference ended with a session by Mr. Parag Sen, Possibilist and Co-founder, homepecked.com. He spoke on Life, Entrepreneurship and PMF (Product/Market Fit). Referring to Subroto Bagchi’s book Go Kiss the World he said life is all about learning. If you can learn to live without salary, if you can learn to survive stressful nights not knowing what is in stock the next morning, if you can learn to live with the guilt of not being able to provide for your loved ones, you are likely to become an entrepreneur, he remarked. A successful entrepreneur is a possibilist, he commented.

Dr. Bijith George Abraham, Associate Professor and main coordinator of the programme proposed the vote of thanks.
A book on Dr. G.P.C. Nayar launched

A new book on Dr. G.P.C. Nayar titled *Inganeyum Oraal* edited by Mr. E.S. Shajendran was launched by Padmashree K.G. Jayan at a function held at Changampuzha Samskarika Kendram in Edappalli on March 2. Mr. C.V. Mohan Bose, President, Changampuzha Samskarika Kendram presided.

The book is a compilation of various articles that appeared in numerous publications on Dr. G.P.C. Nayar, over a period of time. In effect it is a guide book for all those who aspire to become successful entrepreneurs. The book talks about how to become passionate about what you are trying to achieve in life. It tells you about how your passion will ignite the same intensity in others who join you as you build a team to succeed in your endeavour. It reminds you that there is no such thing as overnight success. Behind every overnight success lie years of hard work and sweat. It teaches you that successful people focus on the journey and celebrate the milestones along the way. It briefs you to trust your gut instinct more than any

Mr. Suresh Pai, Senior Director-Data Analytics, UST Global spoke to the students on March 13 on the topic 'how to become a Digital Business Analyst.' He started off speaking on the massive investments being made in industries world over to bring about a transition from product-centric businesses to service-centric ones. He cited the classic example of Ford Motor Company undergoing a corporate restructuring to digitally transform itself over the coming decade. They are focusing on building products that would deal directly with the customers.

Business analytics is used by companies to derive insights from terabytes of data and automate and optimise business processes. Data has become one of the biggest assets and companies deploy business analytics to predict future outcomes, find patterns and relationships and perform statistical analysis. Analytics and Artificial Intelligence are leading the digital transformation, Mr. Pai observed. To be able to derive patterns is the power of data analytics, he said. A business analyst is expected to decode a business problem to modeling problem and iterate until analytical solutions answer the business question. Digital business analyst needs three special skills such as analytical storytelling, business outcome 'end in mind' and digital literacy, he informed.

Artificial intelligence has the potential to take every industry by storm. The medical industry in particular will have one of the strongest impacts with the implementation of machine learning, specifically diagnosing various medical conditions. A Chinese robot could diagnose tumors more accurately and faster than a team of top Chinese physicians, it was reported. The robot correctly diagnosed 87 percent of 225 cases in just 15 minutes, while a team of 15 senior physicians diagnosed 66 percent of the cases accurately.

Almost 35 percent of Amazon.com’s revenue is generated by its recommendation engine. Amazon uses recommendations as a targeted marketing tool in both email campaigns and on most of its websites’ pages. Clicking on the “Your Recommendations” link on Amazon.com leads users to a page full of products recommended just for you. Amazon recommends a range of products from different categories you’ve been browsing, with the aim of putting products in front of you that you’re likely to click.

Close to 97,000 job positions related to analytics and data science are currently vacant in India due to a dearth of qualified talent, a study done by online ed-tech company Great Learning reported.

Mr. Viju Mathew, Chartered Accountant explaining in detail on how to file an Income Tax Return, on March 14.
Ernakulam District Administration has issued certificates of appreciation, to all those PGDM and MBA students of SCMS acknowledging the valuable services rendered by them as volunteers during the flood relief activities in Ernakulam District. Individual certificates signed by the District Collector were handed over to the students at a function held on March 5 by Dr. Indu Nair, Group Director, Dr. C. N. Narayana, Director, SCMS COCHIN School of Business and Dr. Sashi Kumar G., Principal, SSTM.

Visit to Kochi Biennale

Around 750 students and faculty members from various institutions under SCMS Group visited Kochi Biennale under the leadership of Prof. Pramod P. Thevannoor, Vice Chairman and Prof. Baiju Radhakrishnan, Group Director on March 2. Mr. Bose Krishnamachari, President, Kochi Biennale Foundation addressed the visitors.

Papers presented

Dr. Lishin M. J., Associate Professor presented a paper titled ‘Social Entrepreneurship in Tourism Sector: A case study’ at ACBSP Region 10 conference organised by XIME Kochi on March 6.

Ms. Jisha J., Assistant Professor presented a paper titled ‘A case study on successful entrepreneurship in academics domain – Linways story’ in the above conference.

Talk organised by Swara

Swar, the women’s forum in SCMS, organised a talk by Dr. Yukio Kamino, Senior Researcher and Coordinator of Organisation for Industrial, Spiritual and Cultural Advancement headquartered at Tokyo, Japan, on March 19. He spoke on the relevance of ecofeminism, a meeting between feminism and ecology, in the modern context. He dealt with some of the reasons for the delay in achieving the emancipation of women in our society.

Dr. Radha Thevannoor speaks at alumni meet

Dr. Radha P. Thevannoor, Registrar and Group Director delivered a talk in the alumni get together organised by Department of Commerce, University of Kerala on March 9.

Appreciation from the District Administration

Papers presented

Dr. Rajeswari R., Associate Professor presented a paper on ‘Transformation towards professional entrepreneurial leadership in unorganised sector’ at the ACBSP Region 10 Conference 2019 at XIME, Kochi on March 6. She also attended the ACBSP Region 10, Indo-Colombian Entrepreneurship Meet on March 7 at SCMS, Kochi.

Dr. Deepa Pillai, Associate Professor presented a paper on ‘Developing student philanthropreneurs – an educational institution initiative’ at the above Conference at XIME, Kochi. She also attended the Indo-Colombian Entrepreneurship Meet on March 7 at SCMS, Kochi.

Resource person for training

Mr. Vignesh Karthik S. A., Assistant Professor was the resource person on placement training for B.Com final year students of Bhavans College of Arts and Science, Kochi. The session covered areas such as resume building, interview skills, job hunting methods and personality development.

MBA students win overall championship

Eighteen MBA (Batch 16) students participated in the Management Fest CANVAS conducted by Farook Institute of Management Studies, Kozhikode on February 19 and 20 and won the Overall Championship trophy.

The following prizes were also won:
Abhiram Ranjith, Anjali B., Alfiya N. and Shilpa Sathish won the 1st Prize as Best Marketing Team and Jojin Jose, Rohan Eappen Kuria-kose, Malini Mohan and Keerthana S. Kumar won the 2nd Prize.
Win prize at Xlencia

A team of students participated in the Management Fest Xlencia conducted by Bharath Matha College, Kochi on February 27. The team for Finance game – Indu G. Nair, Renjith Sivan, Ann Rose Xavier and Manisha M.S. – won the 2nd prize.

Prize in paper presentation

Indu G. Nair of Batch 16 MBA has won the 2nd prize in the paper presentation contest for management students on the topic ‘Circular Economy for Productivity and Sustainability’ conducted by Kerala State Productivity Council, Kalamassery as part of the Productivity Month celebrations on February 28.

Paper presented

Ms. Annie Thomas, Lecturer in English, Department of Commerce presented a paper titled ‘Changing Roles of Women in Indian Cinema’ in the National Seminar on New Media Rhetoric – Visual Culture and Gender Representation organised by Department of English of Naipunnya Institute of Management and Technology on February 21.

Seminar attended

Ms. Bindu John, Lecturer, MCA Department and Ms Annie Thomas, Lecturer, Department of Commerce attended the National Seminar on Contemporary Trends in Literary Theory: Origin and Implications organised by the Department of English, St.Paul’s College, Kalamassery on February 4.

Workshop on Investment Planning using Excel

A full day workshop on Investment planning using Excel co-sponsored by ICICI Bank, Edapally branch was conducted for MBA batch15 students with specialisation in finance, on March 16.

Mr. Gopinathan Nair, a certified financial planner was the resource person. Dr.G.Sashi Kumar, Principal, SSTM and Mr. Paul Thaliyath, Deputy General Manager of South Indian Bank also spoke at the inaugural function. The hands on training was conducted in the computer lab and many problems regarding investment were explained by Mr. Gopinathan Nair. His vast experience and thorough knowledge made the workshop very interesting and effective. The concepts related to present value, future value and rate, retirement planning and bank rate were explained. The programme coordinators were Dr. Reshmi A. Rajan, Associate Professor and Mr. V. S. Binu, Assistant Professor.

Sset Digest

SCMS School of Engineering and Technology

Department activities

The department of Civil Engineering conducted the annual in-house competition ‘Creazione ’19 - Popsicle bridge contest’ on February 14. A total of 47 teams participated in the contest and first prize was bagged by the team of Anshida C. A., Anu Shon V. C. and Diya S. of S4 CE1 (Batch 2017-21). Second prize was secured by the team of Dakshin Udayan, Doris Davis and Gayathri V. Marar of S8 CE1 (Batch 2015-19).

The department of Civil Engineering conducted the annual in-house quiz competition ‘Inquisitive’ on February 28. The quiz encompassed the field of Civil Engineering and included technical and general awareness questions. Two teams from each class participated making a total of six teams. First prize winners were Aravind Subramaniom and Yadhukrishnan R. of second semester and second place went to Muhammed Aftahudeen and Muhammed Saheel P. A of fourth semester.

The Innovative Software Club at Department of CSE organised a two-day workshop on Android Application Development for sixth semester Electronics and Communications Engineering students on February 21 and 26.

Seminars, conferences and workshops

The IEDC Kerala Startup Mission team organised an IEDC Zonal meet up on February 25. Various IEDC class representatives of SSET, students interested in innovation, solving real world problems and carrying out creative and innovative projects attended
the event. The IEDC Kerala Startup Mission team led by Mr. Jadhav, Fellow, Kerala Startup Mission and Mr. J.S. Sonu, Founder, Starting Trouble – Startup announced the launch of Inspire 2019 and Idea Fest 2019 during the zonal meet up.

Ms. Beena Puthillath, Assistant Professor, Department of Electrical and Electronics Engineering, participated in the seven-day International Workshop on Advanced Data Analysis organised by DDU Kushal Kendra, CUSAT during January 21-27.

Ms. Beena Puthillath also participated in the one day FDP on ‘Train the Trainer’ in Energy Conservation and Energy Auditing organised by Department of Electrical and Electronics Engineering, Rajagiri School of Engineering and Technology, Kochi in association with RSET SEEM chapter and IEEE PES at RSET on February 5.

The Department of Mechanical Engineering under the leadership of Dr. Venu P., HoD organised a three-day training programme on ‘Numerical Methods and Computational Techniques for Modern Engineering’ during February 6-8. The programme had the objective of emphasising on the ubiquitous element of today’s engineering-computing. It was also organised with an intention to introduce the basic numerical methods involved in engineering computations to the amateurs in the field.

Ms. Sindhya K. Nambiar and Ms. Asha S., Assistant Professors, Department of CSE, and Ms. Anandhi V., Assistant Professor, Department of ECE, attended a full-day seminar on Applied Machine Learning on February 22 at PSG College of Technology, Coimbatore.

In the SCMS Intra Group Sports Fest 2019 held from March 13 to 15, SSET emerged overall champions after bagging top position in Badminton (Men and Women), Volleyball (Men and Women), Football, Cricket, Basketball (Men), Runner up in Table tennis (Men and Women) and 2nd runner up in Basketball (Women).

In the events conducted for faculty and staff of SCMS Group, SSET bagged top positions in Badminton singles (Men and Women) as well as doubles (Men and Women) categories. The winners were: Badminton Singles - Men category: Dr. Venu P. (Dean-Student Affairs and HoD-ME), Women category: Ms. Asha S. (Assistant Professor-CSE), Badminton Doubles- Men category: Dr. Varun G. Menon (Associate Professor-CSE and Mr. Santhosh G. (Associate Professor-CE), Women category- Ms. Asha S. and Ms. Blessy Antony (Assistant Professors-CSE)

A talk on ‘Career opportunities after engineering’ was delivered by Dr. Vamsi Krishna, faculty at several Vani institutes pan India, on February 6 for pre-final year students. The talk gave students a clear view about different courses to opt for after engineering and also about the various competitive exams, namely, GATE, ESE, GRE, GENC0, CAT, MAT, and AMCAT to be taken for the same. The class proved to be really useful for the students. Students were able to clear all their doubts regarding the opportunities to explore after engineering. A one hour aptitude scholarship test also was conducted on the same day.

Department of Civil Engineering organised a software training programme by Bentley Institute on February 19. It was a virtual session on Open Roads Designer Software, road way 3D modelling and design software in which a total of 64 civil engineering students from 2016-2020 batch attended.

The Department of Civil Engineering conducted a one day workshop on Sustainability Energy Championship 2019 on February 26, organised by SSET SEEM Students Chapter and IEEE Students Chapter in association with SEEM Kerala Chapter and IEEE Kerala Chapter. Mr. C.M Varghese, SEEM Kerala Chapter was the resource person. The aim of the programme was to give awareness on sustainable energy, need of optimum use of energy resources and energy audit.
The champions are seen with Dr. Venu P., Dean-Student Affairs, Dr. Anitha G. Pillai, Dean Academic Affairs, Dr. Praveen Sal C., Principal, Dr. Vinod P., Professor and HoD, Department of CSE and Mr. Jith J., Assistant Director, Physical Education.

Staff achievements
Dr. Sunil Jacob, Director-Centre for Robotics, was awarded the Dewang Mehta Education Leadership Award at a function at Taj Malabar in Willingdon Island on March 8.

Dr. Vinod P., Professor and HoD, Department of CSE was the resource person for a workshop on Machine Learning with Python, organised by the Department of Computer Science and Engineering, Dr. G. R. Damodaran College of Sciences, Coimbatore during February 14-15.

Dr. Vinod P. conducted a one-credit course on Machine Learning and Deep Learning at IIT, Jammu during February 21-23.

Dr. Varun G. Menon, Associate Professor, Department of CES, presented a distinguished lecture on Essential Research Parameters and Benefits of Reviewing and Opportunistic Routing Protocols in Under Water Sensor Networks at Vidyavardhaka College of Engineering, Mysuru during March 11-12. The talk was supported by ACM.

Student achievements
Ajay K.S., Arjun Menon and Austin Kuruvilla, students of S6 CS1 and Yadukrishna PS., student, S2 CS2 bagged first prize for their project titled ‘Line Follower Robot’ in the tech fest conducted by Christ College of Engineering on February 22.

Aswin Varma, Giri Krishnan P. and Sudev K. S., sixth semester students of Department of Automobile Engineering, bagged 5th position in SBI Numero YONO Quiz 2019 – India’s biggest inter-college quiz competition – held at Mar Ivanios College, Thiruvananthapuram on February 27.

Placement news (Engineering)
The following numbers of offers were given to our 2019 batch students by various companies:
IBM-2, Mphasis Limited-1, Amazon-2, Travancore Analytics-1, Oburst-1, Factweavers Technologies-1, Coral Business Solutions-1, Sutherland Global Services (Voice Process)-9, HCL-2, Shriram Transport-6, Byjus-2, Rapidvalue Solutions-1, Sunnyone Technologies-1.

The final results of Valued Epistemics, Attinad Software, Quest Global, MBIT Wireless, CTS and Federal Bank are awaited.

World Water Day celebrations
Remember, today’s water scarcity is a warning for us. In the days to come, we may not be discussing political and social issues so actively, but every human being will come together for ensuring availability of drinking water, said Mr. A.P. M. Mohammed Hanish IAS, Managing Director, KMRL while celebrating the World Water Day under the joint auspices of KMRL and SCMS Water Institute on March 22.

Mr. Mohammed Hanish along with Dr. Indu Nair, Group Director, SCMS symbolically poured water from a mud pot into a mud vessel, thus exemplifying the concept of water conservation at Edappalli metro station. SCMS Water Institute is conducting a feasibility study of the potential of rain water harvesting in all the metro stations of Kochi metro. Students from SCMS Group of Institutions distributed world water day messages to all the passengers who traveled though all the 16 stations of Kochi metro on World Water Day.

Dr. Sunny George, Director, SCMS Water Institute, Mr. G. P. Hari, Additional General Manager, KMRL and Mr. Adarsh Kumar, DGM, KMRL spoke on the occasion.

Contd. from page 6

The award for Education Leadership being presented to Dr. Sunil Jacob by Mr. Prakash Nair, GM of The Gateway Hotel, Paumalai, Madurai at the Dewang Mehta National Education Awards ceremony. Mr. Ramesh Nair, Country MD, Aptiv Connection System India Pvt. Ltd. is also seen in the picture.

Mr. Mohammed Hanish IAS, MD, KMRL along with Dr. Indu Nair, Group Director, SCMS Water Institute and Mr. Sanal Potty, Public Relations Manager are also in the picture.
SSA News  SCMS School of Architecture

Study tour to Alappuzha

Students of S1 and S2 batch-A of SCMS School of Architecture were taken for a study tour to Alappuzha to document and study a traditional residential complex of the upper class of the 1930s. Built in 1931, the house was then owned by H.B. Mohammed Rowther, an active member of the state congress and son of Kakalan Baba or the Pepper King of the South. Now, it belongs to the successors of Mohammed Rowther.

Motion picture technology workshop

A full day workshop on motion picture technology was conducted on March 13. Ar.Prasanth Mohan, an architect by profession and a photographer and cinematographer by passion, was the resource person. His firm, the Running Studios, focuses on architectural photography and heritage documentation. He has gone to great lengths of research and experimentation to excel in his field. He demonstrated the basics of using a digital SLR effectively. Through his own photographs and works, he explained the importance of sun path analysis in photography just as it is significant in architecture. Night photography, light painting and their significance in creative expression in architectural photography were discussed at length.

In the afternoon session, he discussed the various approaches in film making. He talked about the pre production, production and post production in detail. Many of his cinematography works were shown to the students, following which discussions on the same were held. Through these discussions, he shed light on his thought process and the effort that goes into each sequence. Advanced gadgets such as the Phantom drone, rode mic, gopro fusion, zoom recorder as well as old cameras were demonstrated and the pros and cons of each were explained. Reminiscing, he talked about the photography lab set up in TKM during his college days which gave him the push to come this far in his career.

To wrap up the session, he shared his experiences photo documenting Kumbh mela, Shajahanabad and Hampi.

Motion picture technology workshop by Ar. Prasanth Mohan.

Participation in Inter Sports Architectural tournament

Students of SCMS School of Architecture participated in the Inter Sports Architectural Tournament Revelation ‘19 held at the KMEA College of Architecture on March 2, 3 and 4. They participated in the Football and Badminton events and managed to secure the second runner up spot in the football tournament.

Invited talk by Dr. Sunny George

Dr. Sunny George, Director, SCMS Water Institute gave a talk on the topic ‘Water Security for Sustainable Architecture’ on January 23.

SPIC MACAY cultural programme

A lecture demonstration on Odissi was presented by vidushi Janhabi Behera, along with three musicians to her support, on February 27 at the seminar hall at SSA.

The team was accompanied by the SPIC MACAY North Kerala chapter coordinator Mr. Unni Warrier.

SCP News  SCMS College of Polytechnics

Medical camp conducted

NSS Unit of SCMS College of Polytechnics in association with Sanjoe Hospital, Perumbavoor conducted a full day medical camp on February 23 at the college campus. Blood group identification of students was also conducted at the camp to prepare a data bank. More than 150 members including staff, students, parents and natives had their health checkup. The camp was inaugurated by Prof. C.I. Abdul Rahman, Director.
