

## REPORT

### Technical Session - Upgrade to Update

Mr. Praveen K. M. & Mr. Tom Sebastian representatives from Metrolla Steels delivered a technical talk on 14/01/2013 covering the topics a) TMT steel -uses & Benefits for residential & Commercial applications b) Skill upgradation training on practical Civil construction procedures.

The venue was Seminar hall at the Academic block of SSET and and was held between 9.30am to 11.30am. The talk was attended by the sixth and seventh semester students of Civil Engineering department. The students were able to understand the manufacture and use of TMT bars. The Do's and Don'ts of using the bars were explained by the experienced presenters. The talk was indeed useful to the students in providing a brief exposure to the challenges that they may face during their careers as civil engineers.
