

REPORT

TWO DAY WORKSHOP ON CONCRETE MIX DESIGN

ICI SSET students' chapter organised a workshop on Concrete Mix Design on 27th and 28th March 2015. The two day intensive workshop conducted in collaboration with RMC Ready mix (India) aimed at, imparting adequate knowledge about concrete materials science and concrete mix design. Er. Shelly S. Fernandez and Er. Siddhesh R. Kamath of RMC Readymix India acted as the resource persons. Mix design procedure as per IS 10262-2009 was dealt with in detail apart from various types of special concretes. Workshop course notes explaining in detail the various steps and codal provisions to be followed in concrete mix design was distributed among the 110 participants. Day 2 of the workshop saw enthusiastic students divided into batches undergoing hands on experience in mix designing both with and without use of admixtures, followed by casting of cubes. Er. Hemanth Kumar Thankappan, India Cements and Ms. Manju, RMC Readymix along with Er. Shelly S. Fernandez and Er. Siddhesh R. Kamath helped the students through the task.
