4.2.1 : Library is automated using Integrated Library Management System (ILMS)

SCMS SCHOOL OF ENGINEERING AND TECHNOLOGY

DR. PRADEEP P THEVANNOOR LEARNING RESOURCE CENTRE

The Central Library of SCMS School of Engineering and Technology known as Dr.Pradeep P Thevannoor Learning Resource Centre (Dr. PPTLRC has a carpet area of 2309 m² with 1200 m² earmarked as reading space with a seating capacity of 190.. The library is available for the use of the students and staff for 12 hours on all working days and 7 hours during Saturdays and vacation. All library functions are automated using the Linways Library Management module of our campus software. Some major services and facilities provided to users through our Library Management systems are:

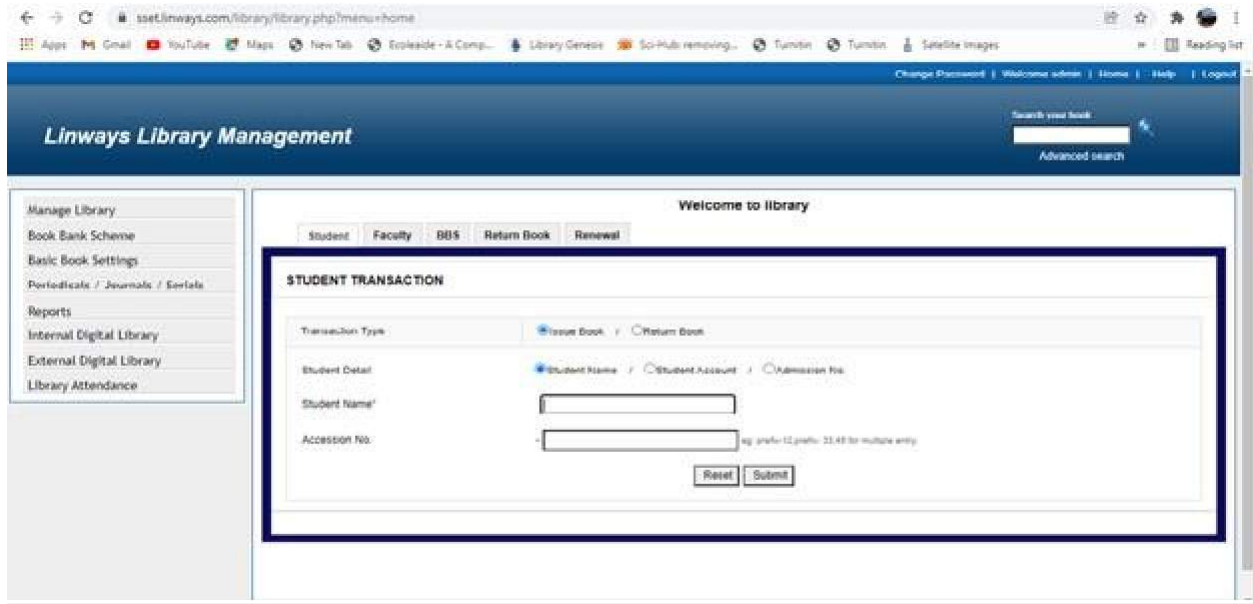

- library book check in / check out facilities,
- book search facility (OPAC service),
- subscribed e-resources database links and remote access details,
- links of other important e-resources for the benefit of students and staff are available through the 'E-Journal links' of our LMS.
- The users can also access the previous year question papers, syllabus etc. through the 'Digital Library' link of the Library Management System.
- Online resources like IEEE, ASME, ASCE, J-Gate, EBSCO E-Books, DELNET, NPTEL, NDL (National Digital Library) of India, SSET-NDLI CLUB. SWAYAM, MIT Open Courseware, etc. are available.

As the e-journals access is IP based, the stakeholders can take benefit of this facility from anywhere in the campus at any time. All these resources are available for access to the students/staff through the library module in a single window. Remote access facility to access all subscribed e-resources is also provided through the Linways portal. These facilities support the students for their self-learning activities. To enhance the quality of publishing, library provides plagiarism detection and prevention service using TURNITIN software. Separate Reference, Periodical, Circulation, Digital Library section, reading area, and new arrivals and library rules display system facilities are available in the library. Open Wi-Fi access facility

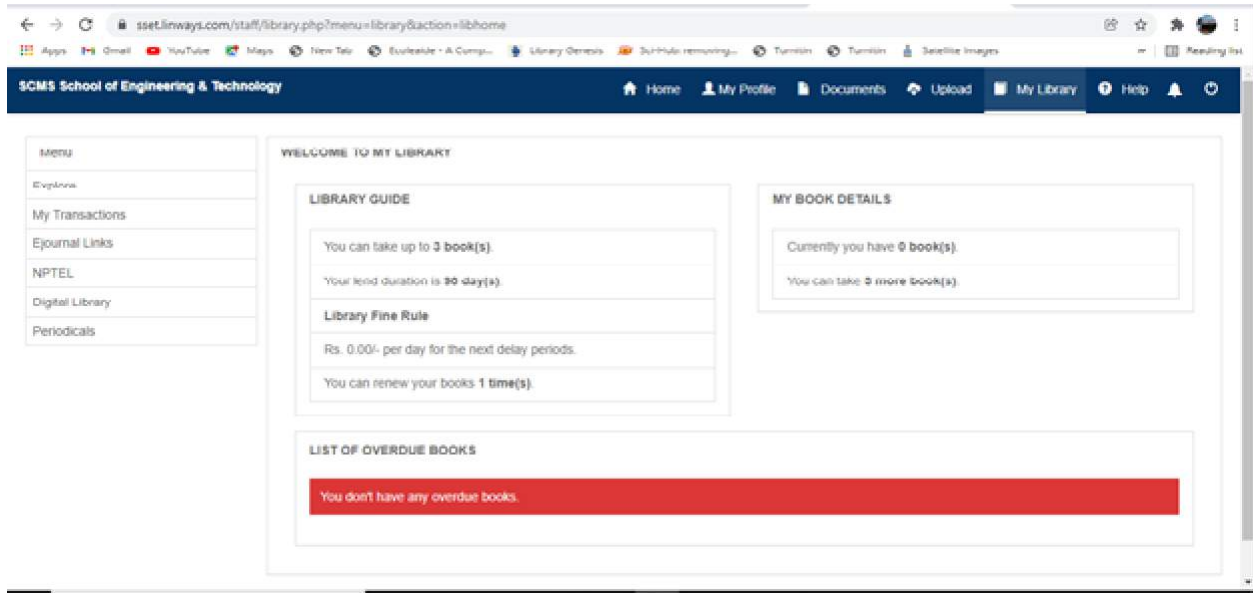

and separate computer systems are provided for e-resources access and document scanning at library.
