

Report on Visit to the Electric World 2024 -Electrical Engineering Expo

The Electric World 2024 Electrical Engineering Expo provided a comprehensive showcase of cutting-edge innovations and advancements in the field of electrical engineering. Held from March 1st to March 3rd, 2024, at Marine Drive , Kochi.

Students from the eighth and fourth semester of the Electrical and Electronics Engineering (EEE) department, along with S8ECE students visited the Electric World 2024 Electrical Engineering Expo on Saturday, March 2nd ,2024. The purpose of the visit was to provide students with insights into the latest innovations and advancements in the field of electrical engineering. The event attracted professionals, researchers, and enthusiasts from around the globe. Students got awareness about the Emerging Technologies, Industry Relevance and Networking and Collaboration.

The expo showcased a myriad of renewable energy technologies, emphasizing sustainability and environmental consciousness. Integration of artificial intelligence and machine learning algorithms into grid management systems was demonstrated, enabling predictive maintenance, fault detection, and real-time optimization.

The visit to Electric World 2024 proved to be an enriching and insightful experience for the participating students from the S8EEE, S4EEE, and S8ECE batches. By immersing themselves in the latest advancements and innovations in electrical engineering, students gained valuable knowledge, insights, and networking opportunities that will aid them in their academic and professional pursuits.

A Total of 30 students and 2 faculties attended the program
