Vision of the Department	To achieve academic excellence in creating globally competent professionals and ethically strong global workforce in the field of Computer Science & Engineering, facilitating research activities, catering to the ever changing industrial demands and societal needs.
Mission of the Department	M1: Creating excellence in Computer Science & Engineering through academic professionalism for the changing needs of the society.
	M2: Establishing centre of excellence for research and for technical development in the area of Computer Science & Engineering.
	M3: Developing communication skill, team work and leadership qualities for continuing education among the students, through project based and team based learning.
	M4: Inculcating ethics and human values for sustainable societal growth and environmental protection.
	M5: Empowering students for employability, aspiring higher studies and to become entrepreneur.

To achieve academic excellence in creating globally competent professionals and ethically strong global workforce in the field of Computer Science & Engineering, facilitating research activities, catering to the ever changing industrial demands and societal needs.

Mission of the Department

- M1: Creating excellence in Computer Science & Engineering through academic professionalism for the changing needs of the society.
- M2: Establishing centre of excellence for research and for technical development in the area of Computer Science & Engineering.
- M3: Developing communication skill, team work and leadership qualities for continuing education among the students, through project based and teambased learning.
- M4: Inculcating ethics and human values for sustainable societal growth and environmental protection.
- M5: Empowering students for employability, aspiring higher studies and to become entrepreneur.
