Sl No.	Agenda
1	To review and recommend the detailed syllabi and laboratory experiments of the First-Year courses from the Department of Artificial Intelligence and Data Science prepared in accordance with the IQAC-prescribed syllabus template.
2	To recommend revisions and updates to the syllabi, whenever necessary, to ensure academic quality, relevance, and alignment with institutional and regulatory requirements.

3	To forward the recommendations and resolutions of the Board of Studies to the Academic Council for its consideration and final approval.
Sl.No	Discussions
The proposed detailed syllabi for the First-Year courses from the Department of Artificial Intelligence and Data Science and the curriculum from B.Tech Computer Science and Engineering(Data Science) and B.Tech Computer Science and Engineering(Artificial Intelligence), prepared in accordance with the IQAC-prescribed syllabus template, were presented to the Board. The Board reviewed the course structure, Course Objectives, Course Outcomes (COs), module-wise content, assessment scheme, teaching–learning methodologies, and prescribed textbooks and reference materials. The members made the following suggestions:	
	26UCEST105 - Programming in C to be taken in the first semester by all streams in SCMS School of Engineering and Technology. The syllabus is the same as that of the KTU 2024 Scheme Syllabus. 26GXESL206 - Computing Practices Lab to be taken in the second semester by all streams in SCMS School of Engineering and Technology. The syllabus has been modified with 12 experiments as per the discussions in the Board of studies meeting with reference to KTU 2024 Scheme Syllabus. 26GAEST204 - Introduction to Python Programming to be taken in the second semester for the Computer Science and Engineering, Computer Science and Engineering(Data Science), Computer Science and Engineering(Artificial Intelligence) streams. It was framed with the basics and introduction to python programming constructs.

	Going through the curriculum of Computer Science and Engineering(Data Science), Computer Science and Engineering(Artificial Intelligence) streams, the members suggested to include the papers like Software Engineering, Algorithm Analysis and Design as core papers rather than electives. They had also suggested bringing Compiler Design into the lower semesters.
Sl.No	Resolutions
1	The recommendation as discussed in the Board of Studies meeting for 26UCEST105 - Programming in C, 26GXESL206 - Computing Practices Lab, 26GAEST204 - Introduction to Python Programming has been made and is attached for approval.
2	The suggestions to include Software Engineering, Algorithm Analysis and Design and compiler design to lower semesters has been forwarded to the Academic Council for decision as the credits has to be taken into account too.
Sl.No	Recommendations to Academic Council

1	The Board recommended forwarding the revised syllabi, incorporating the approved modifications to the Academic Council for consideration and final approval.
