1. Two days training programme in Molecular Biology & Immunology emphasizing two major experiments Western blot and ELISA, that we conducted for M.Tech students of Anna university, Regional campus, Coimbatore on February 16 & 17th 2017 at our lab.
2. Submitted a proposal to DBT and ICMR Government of India for the conduction of Two weeks National workshop on the Application of the molecular tool Real Time PCR on May 15 to May 29th 2017 at SIBBR&D. Subsequently we presented before the committee two more new proposals that we can incorporate for highlighting our academic and research activities. They are as follows:

i) **Short term Training Programme in Functional Genomics.** Target- B.Sc students of life sciences (Biotechnology, Biochemistry, Microbiology, Botany, Zoology, Biophysics & Bioinformatics) those who are waiting for the final semester university results. Duration- 2 weeks. Tentative date- April- May 2017. Fees- Rs. 5000/-. We will prepare the curriculum of the training with the list of experiments. It can be given at SSTM website.

ii) **Molecular stall for Selective Experiments.** This will create a new trend in learning molecular biology experiments. Target- For all doctoral and post-doctoral researchers, faculty members & post graduate students (both M.Sc & M.Tech) of all biological disciplines, and other professionals of medicine and agriculture, we provide an opportunity in learning and doing molecular experiments of their own interest. They can select the experiment from the list prepared by us. The duration of the programme is from one to five days (maximum) depending on the nature of the experiment. Each experiment has a service charge which may vary. We will provide the cost of each experiment and its duration separately in our website so that the candidates can select based on their choice.
