17. Teachers encourage you to participate in extracurricular activities.

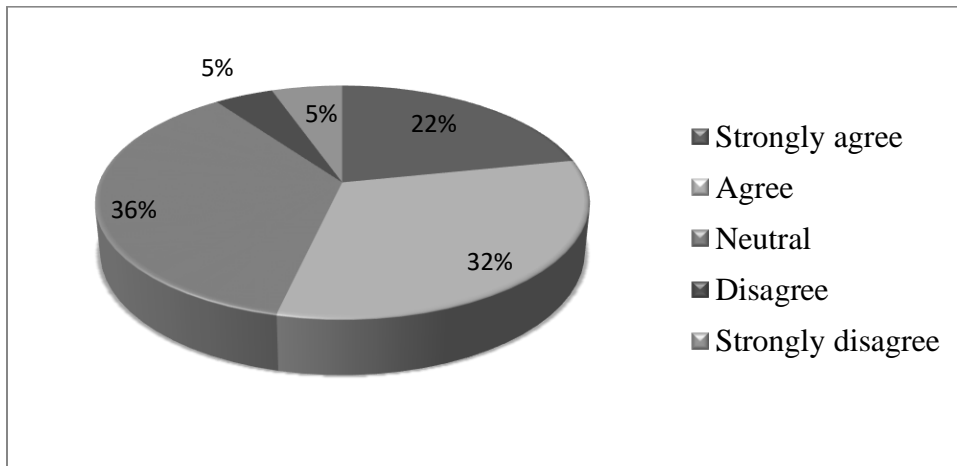

18. Efforts are made by the institute/ teachers to inculcate soft skills, life skills and employability skills to make you ready for the world of work.

19. What percentage of teachers use ICT tools such as LCD projector, Multimedia, etc, while teaching?

20. The overall quality of teaching-learning process in your institute is very good.

21. Give three observation / suggestions to improve the overall teaching - learning experience in your institution. 110 responses

Give the students opportunities to participate in extra-curricular activities and lectures should be minimized and experiential learning should be in focus.
Best college ever
Teachers should be friendly with students.
Faculties are being biased at times. Some mentors are not interested in appreciating good things but keen in identifying mistakes.
More friendly to the student
Feedback of teachers must be asked long before semester end. A late feedback is almost useless. It will be useful for us if you ask feedback within 1 or 2 weeks of semester. That adds value to

the feedback. Equal opportunity to all students or interested students rather than giving priority to favourite students of teachers.
Improve LCD projector lighting and all. Teaching is not bad. Some of the faculties teaching were not good.
More Interactive sessions. Games to be included to increase communication. Practical and General knowledge classes
INCLUDE MORE ACTIVITIES DIDNT FORCE STUDENTS TO ATTEND CLASS MAKE CLASSES MORE ATTRACTIVE
Classes should be more interactive, give assignments on time
It would be better if there are more activities that may encourage young talents to come out and showcase it.
Gud
More activities and group works could be added so as to enhance team work and to relive from theory works
No suggestions
Extra curricular activities are little less...but have very good teachers and facilities. Internship program or something other than curriculum is not provided
Don't be too strict.
Blah
More examples and with present information that is needy
We need more extra curricular activities . We need program and events
College only focuses on teaching and studying there for almost past 3 years . We have not been encouraged for any extra circular activities. Any other college would conduct programs from time to to me. But sad to say not even a single college fest was there in our 3 years of course. Absolutely no memories to cherish; very disappointed and sad. Another 1 more sem and i wish some programs to cherish .
Conduct more seminar in class room sessions.
The course is purely academic with no extra curriculum. Academic exposures for students as well as lab works and experiences are much less. No opportunities or campus selection procedures carried out as generally found in other institutes.
Friendly with students
Course is purely academic with no other extra curricular activities, Academics are good for students but lab works are disappointing, No campus selection as found in other colleges.
Extra curricular activities can be included.
No practicals were taken no extracurricular activities only focusing on academics
Not at all covering main topics. Not finishing syllabus in time. Disappointed with facilities provided in SCMS. Not getting the value of money paid by students. Opportunitys of most students are hindered by the act of other students. Lack of cultural and sports activites . Truely sad and disappointed to be a SCMS student
Teachers should not just teach for name sake. They shouldnt be partial. They should be honest with their attitude towards the work. Should have self respect.
More work experience and extra curricular activities

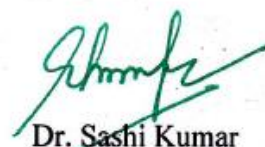

Very poor college and never deliver the value for the fees they are charging. Disappointing sports and other facilities and very poor management
Reduce class hours Include more hours for case studies and thinking purposes Assignments should connect with syllabus
i think teachers has to give us some good life lessons too apart from what is from the syllabus
Need to include more sports activities, Cultural activities.
Don't judge
Change teachers.. Change management.. Stupid management rules... Fed up of the college.. Wastage of money....expensive but no benefit
Need more extracurricular activities Need internship and other job training programmes. Intraction between the students and teachers should be more effective.
It would be better if the class hours would be reduced from 6 hrs to 5hrs,this would help in eliminating overworking
Provide more extracurricular activities
Nothing much
More praticals should be conducted instead of theory
College can provide extracurricular activities
make classes more activity based, give more options in case of assignment, set the timetable in a better way.
More interactive sessions Experimental learning classes. Classes to increase communication & general Knowledge
Give proper instruction to students regarding the events going to happen.
Don't be rude to children. Can be strict but over strictness ruins. Treat everyone as equal, don't be partial to students who excels in theory.
1. It would be better if the teachers are more friendly and have a good relationship with the students. 2. Too much work focused than human - focused
They are well planned and prepared.Nothing to improve.i'm satisfied with them
Field visits can be included.
Why our college doesn't have placement ?
evaluation process have to be fair
Nothing !
There should be internship programmes &extracurricular activities
Please include some seminar classes about new research that have has so far developed in biotechnology. please include few extra curricular activities. after all thanks for providing a good learning experience.
Please provide internship and industry visits for MCA Students
Improve their teaching skills
Maybe more interactive sessions.
Nthng spl
No suggestions
No suggestion

1. understand the students view and give assignments. don't give last moment assignment 2. please don't compel to do presentations at the last moment 3. try to upload every notes/ppt in linways so that every students can access at anywhere.
Want internship experiences. Require much more college like atmosphere that promotes extra curricular activities for overall development. Needs more practical based study to become expertise in it.
Could include placements and more career guidance programmes
Please include Subjects pertaining to SALES. Because 90% of the companies that visit the college is looking for a sales position.
Try to consider students opinion
Try to make the topic more clear and also include some external knowledge instead of going with book eating
Give some freedom to the students and provide extra curricular amenties
Please provide programmes to students like cultural fest and there is need of student council to express our opinion. We need hours for practice. We doesn't have a friendly environment with college and please repair parking area as soon as possible.
Give more practical learning than theoretical learning, give more importance to news paper reading and instead of giving lectures make it more interactive learning.
Improve quality of classes and communicate with students
This is not a college.. its a hell.. There no cultural activities for student,in there most colourful time of life. You guys only love money. College does not encourage students talents and also not providing proper infrastructure facilities. And in this age only boys can have beard, you guys violating the basic human rights. While we are in this college, we dont have colourful life. If you like bring changes to college... please make it fast
Regular test papers, assignments, projects
Don't take too much portions in a single period. Ensure that students are getting practical knowledge from the concepts taught in the class. Ensure interaction between Students and Teachers by giving adequate freedom.
Nothing
The overall quality of teaching and learning is very good and nothing much needed to be improved.
i can explore the use of lab equipments effectively. able to bulid up lab skills.and also teaching is very efficient.
Commitment , Skill , Decision making
More usage of projectors while teaching Reduce no. of assignments
No extra curricular activities. And also teachers are not experienced to teach.
promote extracurriculars activities , conduct programs we need sports thn a ground begging..... plzz dont destroy our life
Nothing
The students should be given time to work and relax. The teachers should give simple assignments with ample time and not tough ones with no time.

Please give any extra curricular activities for students Dont always think that everything what management think is right Please please please give art day or conduct fest im a final year student and im going to loss my college life like fest tour onam sports everything only bcoz i joined SCMS
Need to improve the ambience of campus. Provide opportunities to improve student's talents and in career building. Provide some fests in college to attract students as well as to make them refreshed apart from studies. Dont make students a bookworms.
1. Student-teacher relationship showed be improvised. 2. Management should think about the idea of bringing up a students council. 3. Rule of Democracy should be followed, instead of autocracy.
A little more field excursions are needed . Start teaching on how to face an interview from lower classes itself.
Assigning work in such a way that students get to complete work with reasonable time. Rather than giving the assignments and mini projects at the end of the semester, faculties could make arrangements to do the same much before so that students get reasonable time to complete all the work.
Try to have videos to be included along with the syllabus
*Teachers should not compare one with others became everyone are unique.. *Teacher should find the students skills and encourage them to do something in those interest... *Teachers behave like mother's so they have easy to convey their words to students
Teach students with a pleasant smile. Please see all students equally. All students have different skills, please encourage them..
Giving good internal marks is the least thing you can do
Observe every student
Examples with real life
Use different speeds of delivery to maintain concentration obtain student feedback frequently create a written teaching philosophy and modify it as required based on data that you collect Test on what you teach and teach what you intend to test
Listen to the students. It is important to get student opinion to improve reputation
need to improve extra curricular activities
- It would have been good if the college provides placements or internships for the UG students also. -Need more extra curricular activities. - Need improved teaching systems for the convenience of teachers and students(some classrooms don`t have projectors, there`s unavailability of computer labs at times)
B. A. Economics department requires more teachers for different subjects. Sports should be encouraged and also more activities that can mold the student to better individual for the corporate world.
Please add some more extra curricular activities.
Institution /teachers are not allowing students to be socially committed .this has to be changed. They are always concerned about academics only

OTHER (8)

Teaching style could be much simpler and precise
The college should organize cultural activities and more interactive sessions
The college should provide extracurricular activities to the students
Communication need to be friendly
Institute should provide events especially cultural programmes to to promote the extracurricular activities of students.
Nil
Try to collect suggestions regarding everything related with the institute with a suggestion box that must be checked once in a month so as new ideas may be put up by many.
EXTRA CURRICULAR ACTIVITIES

Dr. Sashi Kumar
Principal
